| Sec. 4-203. | Tag to be placed on collar; lost tags. | 4.10 |
| Sec. 4-204. | Tags; counterfeiting; placing on other dogs or cats. | 4.11 |

Sec. 4-201. Dogs and cats to be vaccinated. The owner of a dog or cat over six (6) months of age shall have the dog or cat vaccinated against rabies by a veterinarian or other authorized person every calendar year before the thirty-first day of December thereof; or, in the case of a pup or kitten, when it is six (6) months old. The person vaccinating the dog or cat shall furnish the owner a certificate of vaccination.

Sec. 4-202. Dog and cat license; registration; tag

A. A charge as set by the Council per year for every male or female dog more than three (3) months of age is hereby levied upon the owner of any such dog kept or harbored within the City.

B. The tax levied in this section shall not apply to a dog only temporarily brought and kept within the City for a period less than fifteen (15) days, nor to a dog brought within the City to participate in a dog show, not to a seeing eye dog when such dog is actually being used by a blind person to aid him in going from place to place, not to dogs being kept in kennels or pet shops for sale.

C. The owner shall pay the tax levied to the City Clerk for every calendar year at the following times:

1. Before the first day of April of each calendar year; or

2. If the dog is acquired or brought in the City after the first day of April, or becomes six (6) months of age after the first day of April, within fifteen (15) days after acquiring or bringing the dog into the City or its becoming six (6) months of age. The fee for part of the year may be prorated based on the number of days left in the year, but in no instance shall the fee be less than one-half (1/2) of the annual fee.

D. Before the City accepts any money offered in payment of the tax for a dog or issues a license for it, the person offering the tax shall present to the City Clerk the certificate of a veterinarian or other person legally authorized to immunize dogs, showing that the dog has been immunized against rabies during the calendar year, that is, since the thirty-first day of the preceding December.

E. The owner of the dog shall, at the time of paying the tax, register the dog by giving the name and address of the owner, the name, breed, color and sex of the dog, and such other reasonable information as the City Clerk may request.

F. The City Clerk thereupon shall deliver an original receipt to the taxpayer and also an appropriate tag to him for the dog. Such tag shall constitute a license for the dog.

Sec. 4-203. Tag to be placed on collar; lost tags.

A. The owner shall cause the tag received from the City Clerk to be affixed to the collar of the dog or cat upon which the tax has been paid so that the tag can easily be seen by officers of the City. The owner shall see that the tag is so worn by the dog or cat at all times.

B. In case the tag is lost before the end of the year for which it was issued, the owner may secure another by applying to the City Clerk, presenting to him the original receipt, and paying to him a fee as set by the Council.

Sec. 4-204. Tags; counterfeiting; placing on other dogs or cats. No person shall counterfeit, or attempt to counterfeit, any tag issued for a dog or cat as provided in this chapter, or take from any dog or cat a tag legally placed upon it, or place such tag upon a dog or cat for which the tag was not specifically issued.

Sec. 5-1001. Statutory Authorization. The Legislature of the State of Oklahoma has in 11 O.S. §§ 41-47, as amended, delegated the responsibility to local governmental units to adopt ordinances designed to minimize flood losses. Therefore, the City of Wagoner, Oklahoma, ordains the following, to become effective immediately.

Sec. 5-1002. Findings of Fact.

A. The flood hazard areas of the City of Wagoner are subject to periodic inundation, which results in loss of life and property, health and safety hazards, disruption of commerce and governmental services, and extraordinary public expenditures for flood protection and relief, all of which adversely affect the public health, safety and general welfare.

B. These flood losses are created by the cumulative effect of obstructions in floodplains which cause an increase in flood heights and velocities, and by the occupancy of flood hazards areas by uses vulnerable to floods and hazardous to other lands because they are inadequately elevated, floodproofed or otherwise protected from flood damage.

Sec. 5-1003. Statement of Purpose. It is the purpose of this Chapter to promote the public health, safety and general welfare and to minimize public and private losses due to flood conditions in specific areas by provisions designed to:

1. Protect human life and health;
2. Minimize expenditure of public money for costly flood control projects;
3. Minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public;
4. Minimize prolonged business interruptions;
5. Minimize damage to public facilities and utilities such as water and gas mains, electric, telephone and sewer lines, streets and bridges located in floodplains;
6. Help maintain a stable tax base by providing for the sound use and development of flood-prone areas in such a manner as to minimize future flood blight areas; and
7. Ensure that potential buyers are notified that property is in a flood area.

Sec. 5-1004. Methods of Reducing Flood Losses. In order to accomplish its purposes, this Chapter uses the following methods:

1. Restrict or prohibit uses that are dangerous to health, safety or property in times of flood, or cause excessive increases in flood heights or velocities;
2. Require that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction;
3. Control the alteration of natural floodplains, stream channels, and natural protective barriers, which are involved in the accommodation of flood waters;
4. Control filling, grading, dredging and other development which may increase flood damage; and
5. Prevent or regulate the construction of flood barriers which will unnaturally divert floodwaters or which may increase flood hazards to other lands.

11. “*Elevated building*” means a non-basement building built, in the case of a building in Zones AE, A, and X, to have the top of the elevated floor adequately anchored so as not to impair the structural integrity of the building during a flood up to the magnitude of the base flood. In the case of Zones AE, A, and X, “elevated building” also includes a building elevated by means of fill or solid foundation perimeter walls with openings sufficient to facilitate the unimpeded movement of flood waters.
12. “*Existing construction*” means for the purposes of determining rates, structures for which the “start of construction” commenced before the effective date of the FIRM or before January 1, 1975, for FIRMs effective before that date. “Existing construction” may also be referred to as “existing structures.”
13. “*Existing manufactured home park or subdivision*” means a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including, at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed before August 4, 1972.
14. “*Expansion to an existing manufactured home park or subdivision*” means the preparation of additional sites by the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).

16. “*FIRM*” means Flood Insurance Rate Map.
17. “*Flood*” or “*flooding*” means a general and temporary condition of partial or complete inundation of normally dry land areas from:
 - a. The overflow of inland or tidal waters, or
 - b. The unusual and rapid accumulation or runoff of surface waters from any source.
18. “*Flood Insurance Rate Map*” means an official map of the City of Wagoner on which FEMA has delineated both the areas of special flood hazards and the risk premium zones applicable to the City of Wagoner.
19. “*Flood insurance study*” is the official report provided by FEMA for City of Wagoner which contains flood profiles, water surface elevation of the base flood, as well as the floodway width, section area and mean velocity.
20. “*Floodplain Administrator*” means a person accredited by the OWRB and designated by the City Council of the City of Wagoner to administer and implement laws, ordinances and regulations relating to the management of floodplains.

- 21.** “*Floodplain or flood-prone area*” means any land area susceptible to being inundated by water from any source (see definition of flood).
- 22.** “*Floodplain management*” means the operation of an overall program of corrective and preventive measures for reducing flood damage, including but not limited to emergency preparedness plans, flood control works and floodplain management regulations.
- 23.** “*Floodplain management regulations*” means zoning codes and ordinances, subdivision regulations, building codes, health regulations, special purpose regulations and ordinances (such as floodplain, grading and erosion control regulations and ordinances) and other applications of police power. The term describes such state or local regulations, in any combination thereof, which provide standards for the purpose of flood damage prevention and reduction.
- 24.** “*Flood protection system*” means those physical structural works for which funds have been authorized, appropriated, and expended and which have been constructed specifically to modify flooding in order to reduce the extent of the areas within City of Wagoner subject to a “special flood hazard” and the extent of the depths of associated flooding. Such a system typically includes hurricane tidal barriers, dams, reservoirs, levees or dikes. These specialized flood modifying works are those constructed in conformance with sound engineering standards.
- 25.** “*Floodway*” means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than a designated height. A floodway is located within areas of special flood hazard established in Sec. 5-1032 of this *Code*. A floodway is an extremely hazardous area due to the velocity of floodwaters that carry debris and potential projectiles.
- 26.** “*Functionally dependent use*” means a use that cannot perform its intended purpose unless it is located or carried out in close proximity to water. The term includes only docking facilities, port facilities that are necessary for the loading and unloading of cargo or passengers, and ship building and ship repair facilities, but does not include long-term storage or related manufacturing facilities.
- 27.** “*Highest adjacent grade*” means the highest natural elevation of the ground surface prior to construction next to the proposed walls of a structure.
- 28.** “*Historic structure*” means any structure that is:
- a.** Listed individually in the National Register of Historic Places (a listing maintained by the Department of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register;

 - c.** Individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the Secretary of Interior; or
 - d.** Individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified either:
 - i.** By an approved state program as determined by the Secretary of the Interior, or
 - ii.** Directly by the Secretary of the Interior in states without approved programs.
- 29.** “*Levee*” means a man-made structure, usually an earthen embankment, designed and constructed in accordance with sound engineering practices to contain, control, or divert the flow of water so as to provide protection from temporary flooding.
- 30.** “*Levee system*” means a flood protection system which consists of a levee or levees and associated structures, such as closure and drainage devices, which are constructed and operated in accordance with sound engineering practices.

31. *“Lowest floor”* means the lowest floor of the lowest enclosed area (including basement). An unfinished or flood resistant enclosure, usable solely for parking or vehicles, building access or storage in an area other than a basement area is not considered a building’s lowest floor; provided that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirement of Section 60.3 of Title 44 CFR.

32. *“Manufactured home”* means a structure transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. The term “manufactured home” does not include a “recreational vehicle”.

33. *“Manufactured home park or subdivision”* means a parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale.

34. *“Mean sea level”* means, for purposes of the National Flood Insurance Program, the North American Vertical Datum (NAVD) of 1988 or other datum, to which base flood elevations shown on the City of Wagoner’s Flood Insurance Rate Map are referenced.

35. *“New construction”* means, for the purpose of determining insurance rates, structures for which the “start of construction” commenced on or after the effective date of an initial FIRM or after December 31, 1974, whichever is later, and includes any subsequent improvements to such structures. For floodplain management purposes, “new construction” means structures for which the “start of construction” commenced on or after the effective date of a floodplain management regulation adopted by the City of Wagoner City Council and includes any subsequent improvements to such structures.

36. *“New manufactured home park or subdivision”* means a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of floodplain management regulations adopted by the City of Wagoner.

37. *“OWRB”* means the Oklahoma Water Resources Board.

38. *“Recreational vehicle”* means a vehicle which is:

- a. Built on a single chassis;
- b. 400 square feet or less when measured at the largest horizontal projections;
- c. Designed to be self-propelled or permanently towable by a light duty truck; and
- d. Designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel, or seasonal use.

39. *“Start of construction”* (for other than new construction or substantial improvements under the Coastal Barrier Resources Act (Public Law 97-348), includes substantial improvement and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, or other improvement was within 180 days of the permit date. The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for basement, footings, piers or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of a building, whether or not that alteration affects the external dimensions of the building.

40. *“Structure”* means a walled and roofed building, including a gas or liquid storage tank that is principally above ground, as well as a manufactured home.

41. “*Substantial damage*” means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred.

42. “*Substantial improvement*” means any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure before “start of construction” of the improvement. This includes structures that have incurred “substantial damage”, regardless of the actual repair work performed. The term does not, however, include either:

a. Any project for improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary conditions, or

b. Any alteration of an “historic structure” provided that the alteration would not preclude the structure’s continued designation as an “historic structure.”

43. “*Variance*” is a grant of relief by the City of Wagoner City Council to a person from the terms of this Chapter when specific enforcement would result in unnecessary hardship. A variance, therefore, permits construction or development in a manner otherwise prohibited by this Chapter. (For full requirements see Section 60.6 of Title 44 CFR.)

44. “*Violation*” means the failure of a structure or other development to be fully compliant with this City of Wagoner flood damage prevention ordinance.

45. “*Water surface elevation*” means the height, in relation to the North American Vertical Datum (NAVD) of 1988 (or other datum, where specified), of floods of various magnitudes and frequencies in the floodplains of coastal or riverine areas.

| Sec. 5-1041. | Designation of the floodplain administrator. | 5.16 |
| Sec. 5-1042. | Duties and responsibilities of the floodplain administrator. | 5.16 |
| Sec. 5-1043. | Permit procedures. | 5.17 |
| Sec. 5-1044. | Variances. | 5.18 |

Sec. 5-1041. Designation of the floodplain administrator. The City Council of the City of Wagoner shall from time to time designate a Floodplain Administrator to administer and implement the provisions of this Chapter and appropriate sections of National Flood Insurance Program regulations in Title 44 CFR pertaining to floodplain management.

Sec. 5-1042. Duties and responsibilities of the floodplain administrator. Duties and responsibilities of the Floodplain Administrator shall include, but not be limited to, the following:

1. Become accredited by the OWRB in accordance with Title 82 O.S. §§ 1601-1618, as amended.
2. Review permit applications to determine whether the proposed building sites, including the placement of manufactured homes, will be reasonably safe from flooding.
3. Review, approve or deny all applications for Development Permits required by this Chapter.
4. Review proposed development to assure that all necessary permits have been obtained from those Federal, State or local governmental agencies from which prior approval are required.
5. Make the necessary interpretation where interpretation is needed as to the exact location of the boundaries of the areas of special flood hazards (for example, where there appears to be a conflict between a mapped boundary and actual field conditions).
6. Notify, in riverine situations, adjacent communities and the OWRB prior to any alteration or relocation of a watercourse, and submit evidence of such notification to the FEMA.
7. Assure that the flood carrying capacity within the altered or relocated portion of any watercourse is maintained.

8. Shall require the developer/applicant to determine and provide the base flood elevation on a FEMA Elevation Certificate as well as other data as required in order to administer the provisions of Article V.

9. When a floodway has not been designated, the Floodplain Administrator must require that no new construction, substantial improvements, or other development (including fill) shall be permitted within Zone AE as delineated on the Wagoner County FIRM, unless it is demonstrated that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will not increase the water surface elevation of the base flood more than one foot at any point within the City of Wagoner.

10. After a disaster or other type of damage occurrence to structures in the City of Wagoner, determine if the residential and non-residential structures and manufactured homes have been substantially damaged, and enforce the substantial improvement requirement.

11. Maintain a record of all actions involving an appeal from a decision of the City Council.

12. Maintain and hold open for public inspection all records pertaining to the provisions of this Chapter.

Sec. 5-1043. Permit procedures. The procedure for obtaining a Development permit shall be as follows:

1. An Application for a Development Permit shall be presented to the Floodplain Administrator on forms furnished by him/her and may include, but not be limited to, plans in duplicate drawn to scale showing the location, dimensions, and elevation of proposed landscape alterations, existing and proposed structures, including the placement of manufactured homes, and the location of the foregoing in relation to areas of special flood hazard. Additionally, the following information is required:

a. Elevation in relation to mean sea level of the lowest floor (including basement) of all new and substantially improved structures; and

b. Description of the extent to which any watercourse or natural drainage will be altered or relocated as a result of proposed development.

2. Approval or denial of a Development Permit by the Floodplain Administrator shall be based on all of the provisions of this Chapter and the following relevant factors:

a. The danger to life and property due to flooding or erosion damage;

b. The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner;

c. The danger that materials may be swept onto other lands to the injury of others;

d. The compatibility of the proposed use with existing and anticipated development;

e. The safety of access to the property in times of flood for ordinary and emergency vehicles;

f. The costs of providing governmental services during and after flood conditions including maintenance and repair of streets and bridges, and public utilities and facilities such as sewer, gas, electrical and water systems;

g. The expected heights, velocity, duration, rate of rise and sediment transport of the flood waters and the effects of wave action, if applicable, expected at the site;

h. The necessity to the facility of a waterfront location, where applicable;

i. The availability of alternative locations, not subject to flooding or erosion damage, for the proposed use; and

j. The relationship of the proposed use to the comprehensive plan for that area.

3. The Floodplain Administrator or City Council, as applicable, may approve certain development in Zones A or AE delineated on the Wagoner County FIRM which increases the water surface elevation of the base flood by more than one foot, provided that the applicant for the Development Permit in that case first complies with 44 CFR Section 65.12.

Sec. 5-1044. Variances.

A. General provisions.

1. The City Council of the City of Wagoner may grant variances for uses which do not satisfy the requirements of the Oklahoma Floodplain Management Act or this Chapter, if the applicant for the variance presents adequate proof that (i) compliance with this Chapter will result in an arbitrary and unreasonable taking of property without sufficient benefit or advantage to the people and (ii) satisfies the pertinent provisions of this Section D. However, no variance shall be granted where the effect of the variance will be to permit the continuance of a condition which unreasonably creates flooding hazards.
2. Any variance so granted shall not be construed as to relieve any person who receives it from any liability imposed by the Oklahoma Floodplain Management Act or by other laws of the state.
3. In no case shall variances be effective for a period longer than twenty (20) years.
4. Any person seeking a variance shall file a petition with the City Council, accompanied by a filing fee as provided in Section 5-1061 of this *Code*.
5. Variances may be issued for new construction and substantial improvements to be erected on a lot of one-half acre or less in size contiguous to and surrounded by lots with existing structures constructed below the base flood level, providing the relevant factors in Sec. 5-1043(2) and provisions of Sec. 5-1044 of this *Code* have been fully considered. As the lot size increases beyond the one-half acre, the technical justification required for issuing the variance increases.
6. Any person seeking a variance to build a structure below the base flood elevation will be issued a notice signed by the Chairman of the City Council which states that (i) the cost of flood insurance will be commensurate with the increased risk resulting from permitting the structure to be built lower than the base flood elevation, and (ii) such construction below the base flood level increases risks to life and property.
7. At such time as the City Council deems the petition ready for notification to the public, the City Council shall schedule a hearing and direct the applicant to publish notice thereof in a newspaper of general circulation in Wagoner County at least thirty (30) days prior to the hearing.
8. The City Council shall conduct the hearing and make determinations in accordance with the applicable provisions of this Section. The City Council shall exercise wide discretion in weighing the equities involved and the advantages and disadvantages to the applicant and to the public at large when determining whether the variance shall be granted.
9. Variances shall only be issued upon:
 - a. A showing of good and sufficient cause;
 - b. A determination that failure to grant the variance would result in exceptional hardship to the applicant;
 - c. A determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public, or conflict with existing local laws, regulations or ordinances; and
 - d. A determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.
10. Upon consideration of the factors stated in this Section and the intent of this Chapter, the City Council may attach such conditions to the granting of a variance as it deems necessary to further the purposes and objectives stated in Sec. 5-1003 of this *Code*.

11. The Floodplain Administrator shall maintain a record of all variance actions, including justification for their issuance; and a copy of any variance issued by the Floodplain Board shall be sent by the Floodplain Administrator to the OWRB and FEMA within fifteen (15) days after issuance of the variance.

B. Special provisions.

1. Variances may be issued for the reconstruction, rehabilitation or restoration of structures listed on the National Register of Historic Places or the State Inventory of Historic Places, without regard to the procedures set forth in the remainder of this Chapter.

2. Variances shall not be issued within any designated floodway if any increase in flood levels during the base flood discharge would result.

3. Variances may be issued for the repair or rehabilitation of historic structures upon a determination that the proposed repair or rehabilitation will not preclude the structure's continued designation as a historic structure and the variance is the minimum necessary to preserve the historic character and design of the structure.

4. Variances may be issued for new construction and substantial improvements and for other development necessary for the conduct of a functionally dependent use provided that:

- a. The criteria of Sec. 5-1044(A)(5); Sec. 5-1044(A)(9); Sec. 1044(B)(2); and Sec. 1044(B)(3) of this *Code* are met, and
- b. The structure or other development is protected by methods that minimize flood damages during the base flood and create no additional threats to public safety.

PROVISIONS FOR FLOOD HAZARD REDUCTION

| | | |
|--------------|-------------------------------------|------|
| Sec. 5-1051. | General standards. | 5.19 |
| Sec. 5-1052. | Specific standards. | 5.20 |
| Sec. 5-1053. | Standards for Subdivisions. | 5.21 |
| Sec. 5-1054. | Floodways. | 5.21 |
| Sec. 5-1055. | Severability. | 5.21 |

Sec. 5-1051. General standards. In all areas of special flood hazards the following provisions are required for all new construction and substantial improvements:

- 1. All new construction or substantial improvements shall be designed (or modified) and adequately anchored to prevent flotation, collapse or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy;
- 2. All new construction or substantial improvements shall be constructed by methods and practices that minimize flood damage;
- 3. All new construction or substantial improvements shall be constructed with materials resistant to flood damage;
- 4. All new construction or substantial improvements shall be constructed with electrical, heating, ventilation, plumbing, and air conditioning equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.
- 5. All new and replacement water supply systems shall be designed to minimize or eliminate infiltration of flood waters into the system;

6. New and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood waters into the system and discharge from the systems into flood waters; and,
7. On-site waste disposal systems shall be located to avoid impairment to them or contamination from them during flooding.

Sec. 5-1052. Specific standards. In all areas of special flood hazards the following provisions are required:

1. Residential Construction - new construction and substantial improvement of any residential structure shall have the lowest floor (including basement) elevated at least one (1) foot above the base flood elevation. A registered professional engineer, architect, or land surveyor shall submit a certification to the Floodplain Administrator that the standard of this subsection is satisfied.
2. Nonresidential Construction - new construction and substantial improvements of any commercial, industrial or other nonresidential structure shall have the lowest floor (including basement) elevated at least one (1) foot above the base flood elevation. A registered professional engineer, architect, or land surveyor shall submit a certification to the Floodplain Administrator that the standard of this subsection is satisfied.
3. Enclosures - new construction and substantial improvements, with fully enclosed areas below the lowest floor that are usable solely for parking of vehicles, building access or storage in an area other than a basement and which are subject to flooding shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or architect or meet or exceed the following minimum criteria:
 - a. A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided;
 - b. The bottom of all openings shall be no higher than one foot above grade; and
 - c. Openings may be equipped with screens, louvers, valves, or other coverings or devices provided that they permit the automatic entry and exit of floodwaters.
4. Manufactured Homes - Require that all manufactured homes to be placed anywhere within the community in Flood Zones A and/or AE on the Wagoner FIRM shall be installed using methods and practices that minimize flood damage and have the bottom of the I-beam elevated at least one (1) foot above the base flood elevation. For the purposes of this requirement, manufactured homes must be elevated and anchored to a permanent foundation to resist flotation, collapse, or lateral movement. This requirement is in addition to applicable State and local anchoring requirements for resisting wind forces. The home shall be installed by a licensed installer according to Oklahoma state law and compliance herewith shall be certified in writing to the Floodplain Administrator by said installer prior to habitation of the manufactured home.
5. Recreational Vehicles - Require that recreational vehicles placed on sites within Zones A and AE on the Wagoner County FIRM either:
 - a. Be on the site for fewer than 180 consecutive days,
 - b. Be fully licensed and ready for highway use, or
 - c. Meet the permit requirements of Sec. 1043 of this *Code*, and the elevation and anchoring requirements for "manufactured homes" in paragraph (4) of this section. A recreational vehicle is ready for highway use if it is on its wheels or jacking system, is attached to the site only by quick disconnect type utilities and security devices, and has no permanently attached additions.
6. Accessory Structure – Accessory structures to be placed on sites within Zones A and AE on the Wagoner County FIRM shall comply with the following:
 - a. The structure shall be unfinished on the interior;

- b. The structure shall be used only for parking and limited storage;

1. "Court" means the municipal criminal court of the City of Wagoner;
2. "Judge" means the judge of the municipal criminal court, including any acting judge or alternate judge thereof as provided for by the statutes of this state and this chapter;
3. "Clerk" means the clerk of this City, including any deputy or member of the office staff of the Clerk while performing duties of the Clerk's office;
4. "Marshal" means the peace officer in charge of the police force of the City; and

Sec. 6-104. Judge; qualifications. There shall be one judge of the court. The judge shall be an attorney licensed to practice law in the state who resides in the county in which the City is located or in an adjacent county, or who maintains a permanent office in this City. A judge who is a licensed attorney may engage in the practice of law in other courts, but he shall not accept employment inconsistent with his duties as judge, or in cases arising out of facts which give rise to or are connected with cases within the jurisdiction of the court, or in cases pending therein or which might become the subject of proceedings therein.

Sec. 6-105. Term of judge. The official term of the judge shall be two (2) years expiring on the 1st day of February in each odd-numbered year. Each judge, unless sooner removed for proper cause, shall serve until his successor is appointed and qualified.

Sec. 6-106. Alternate judge. There may be appointed for each judge of the court an alternate possessed of the same qualifications as the judge. His appointment shall be for the same term and made in the same manner as the judge. He shall sit as acting judge of the court in any case if the judge is absent from the court, unable to act as judge, or disqualified from acting as judge in the case.

Sec. 6-107. Acting judge. If at any time there is no judge duly appointed and qualified, available to sit as judge, the Mayor shall appoint some person, possessing the qualifications required by this chapter for the judge, who shall preside as acting judge over the court in the disposition of pending matters until such time as a judge shall be available.

Sec. 6-108. Appointment of judge and alternate judge. Judges shall be appointed by the Mayor with the consent of the Council. A proposed appointment shall be submitted in writing to the Council at a regularly scheduled meeting immediately preceding the regularly scheduled meeting upon which the appointment is to be considered. The proposed appointment shall be acted upon at the next regularly scheduled meeting. The Council may decide upon the proposed appointment by a majority vote of a quorum present and acting. Failure of decision upon a proposed appointment shall not prevent action thereon at a later scheduled meeting of the Council unless the Mayor, in writing, withdraws the proposed appointment.

Sec. 6-109. Salary and payments to judge. A judge, other than an acting judge, shall receive a salary as set by the Council from time to time, to be paid in the manner as set by the Council. An acting judge shall be paid a sum as set by the Council; however, their salary for any month shall not exceed the salary of the judge in whose stead the acting judge sits.

Sec. 6-110. Removal of judge. Judges shall be subject to removal from office by the Council for the causes prescribed by the constitution and laws of this state for the removal of public officers. Proceedings for removal shall be instituted by the filing of a verified written petition setting forth facts sufficient to constitute one or more legal grounds for removal. Petitions may be signed and filed by:

1. The Mayor; or
2. Twenty-five (25) or more qualified electors of the City. Verification of the number or qualifications of electors shall be executed by one or more of the petitioners.

The Council shall set a date for hearing the matter and shall cause notice thereof, together with a copy of the petition, to be served personally upon the judge at least ten (10) days before the hearing. At the hearing, the judge shall be entitled to:

1. Representation by counsel;
2. To present testimony and to cross-examine the witnesses against him; and
3. Have all evidence against him presented in open hearing.

So far as they can be applicable, the provisions of the Oklahoma Administrative Procedures Act governing individual proceedings (Sections 309 to 317 of Title 75 of the Oklahoma Statutes, as amended) shall govern removal proceedings hereunder. Judgment of removal shall be entered only upon individual votes, by a majority of all members of the Council in favor of such removal.

Sec. 6-111. Vacancy in office of judge. A vacancy in the office of judge shall occur if the incumbent:

1. Dies;
2. Resigns;
3. Ceases to possess the qualifications for the office; or
4. Is removed, and the removal proceedings have been affirmed finally in judicial proceedings or are no longer subject to judicial review.

Upon the occurrence of a vacancy in the office of judge, the Mayor shall appoint a successor to complete the unexpired term in the same manner as an original appointment.

Sec. 6-112. Disqualification of judge. In prosecutions before the court no change in venue shall be allowed; but the judge before whom the case is pending may certify his disqualification or he may be disqualified from sitting under the terms, conditions and procedures provided by law for courts of record. If a judge is disqualified, the matter shall be heard by an alternate or acting judge appointed as provided in this chapter.

Sec. 6-113. Marshal. All writs or processes of the court shall be directed, in his official title, to the chief of police, who shall be the principal officer of the court.

All money paid to the Treasurer shall be placed in the general fund of the City, or in such other funds as the governing body may direct, and it shall be used in the operation of the municipal government in accordance with budgetary arrangements governing the fund in which it is placed.

Sec. 6-115. Prosecuting attorney; duties. The attorney for this municipality, or his duly designated assistant, may be prosecuting officer of the court. He may also prosecute all alleged violations of the ordinances of the City. He shall be authorized, in his discretion, to prosecute and resist appeal, proceedings in error and review from this court to any other court of the state, and to represent the City in all proceedings arising out of matters in this court.

Sec. 6-116. Bond of court clerk. The court clerk of the court shall give bond, in the form provided by law, in a sum to be determined by the Council. When executed, the bond shall be submitted to the governing body for approval. When approved, it shall be filed with the Clerk and retained in the City archives.

Sec. 6-118. Enforcement of rules. Obedience to the orders, rules and judgments made by the judge or by the court may be enforced by the judge, who may fine or imprison for contempt committed as to him while holding court, or committed against process issued by him, in the same manner and to the same extent as the district courts of this state.

Sec. 6-119. Written complaints to prosecute ordinance violations. All prosecutions for violations of ordinances of this city shall be styled "The City of Wagoner, Oklahoma vs. (naming defendant or defendants)". The officer, upon receiving the written promise of the alleged violator, endorsed on the citation to answer as specified, may then release the person from custody. If the person to whom a citation is issued fails to answer as prescribed in the citation, complaint shall be filed and the case shall be prosecuted as otherwise provided in this chapter.

B. If the alleged traffic violation is committed by a nonresident or resident of this municipality, the police officer may:

- 1.** Release the person after obtaining sufficient information as set out in Subsection A of this section pending his appearance on a day certain in court;

- 3.** Take the person into custody under arrest. The arrested person either shall be taken immediately before the judge for further proceedings according to law or shall have bail fixed for his release in accordance with the provisions of this chapter Upon providing bail as fixed, and upon giving his written promise to appear upon a day certain, as provided in Subsection A of this section, the person shall be released from custody.

C. If the alleged offense be a violation of an ordinance restricting or regulating the parking of vehicles, including any regulations issued under such an ordinance, and the operator be not present, the police officer shall place on the vehicle, at a place reasonably likely to come to the notice of the

operator, a citation conforming substantially to that prescribed in Subsection A or B of this section, with such variation as the circumstances require, the operator of this vehicle shall be under the same obligation to respond to the citation as if it had been issued to him personally under Subsections A or B of this section.

Sec. 6-121. Traffic bail bond procedures.

A. In addition to other provisions of law for posting bail, any person, whether a resident of this state or a nonresident, who is arrested by a law enforcement officer solely for a misdemeanor violation of a state traffic law or municipal traffic ordinance shall be released by the arresting officer upon personal recognizance if:

2. The defendant was not released upon personal recognizance upon a signed written promise to appear as provided for in this section or if released, was not permitted to remain on such personal recognizance for arraignment;
3. The violation relates to parking or standing, an overweight violation, an overweight permit, or the transportation of hazardous materials; or
4. A period of one hundred twenty (120) calendar days or more has elapsed from the date the citation was issued by the arresting officer.

F. The court clerk shall maintain a record of each request for driver's license suspension submitted to the State Department of Public Safety pursuant to the provisions of this section. When the court or court clerk receives appropriate bail or payment of the fine and costs, settles the citation, makes other arrangements with the defendant, or otherwise closes the case, the court clerk shall furnish proof thereof to such defendant, if the defendant personally appears, or shall mail such proof by first class mail, postage prepaid, to the defendant at the address noted on the citation or at such other address as is furnished by the defendant. Additionally, the court or court clerk shall notify the home jurisdiction of the defendant as listed on the citation, if such jurisdiction is a member of the Nonresident Violator Compact, and shall in all other cases, notify the State Department of Public Safety of the resolution of the case. The form of proof and the procedures for notification shall be approved by the State Department of Public Safety. Provided however, the court or court clerk's failure to furnish such proof or notice in the manner provided for in this subsection shall in no event

create any civil liability upon the court, the court clerk, the state or any political subdivision thereof, or any state department or agency or any employee thereof but duplicate proof shall be furnished to the person entitled thereto upon request.

Sec. 6-122. Creation of traffic violations bureau.

A. A traffic violations bureau is established as a division of the office of the clerk of the court, to be administered by the clerk, or by subordinates designated by him for that purpose. Persons who are cited for violation of one of the traffic regulatory ordinances of this municipality may elect to pay a fine in the traffic violations bureau according to the schedule of fines to be determined by the Council by motion or resolution.

B. The court may adopt rules to carry into effect this section. Payment of a fine under this section shall constitute a final determination of cause against the defendant. If a defendant who has elected to pay a fine under this section fails to do so, prosecution shall proceed under the provisions of this chapter.

Sec. 6-123. Summons for arrest.

A. Upon the filing of a complaint charging violation of any ordinance, the judge, unless he determines to issue a warrant of arrest, or unless the defendant previously has been issued a citation or has been arrested and has given bond for appearance, shall issue a summons, naming the person charged, specifying his address or place of residence, if known, stating the offense with which he is charged and giving him notice to answer the charge in the court on a certain day after the summons is served upon him, and including such other pertinent information as may be necessary.

B. The summons shall be served by delivering a copy to the defendant personally. If he fails to appear and to answer the summons within the prescribed period, a warrant shall be issued for his arrest, as provided by this chapter.

Sec. 6-124. Form of arrest warrant.

A. Except as otherwise provided in the ordinances of the City, upon the filing of a complaint approved by the endorsement of the attorney of this City or by the judge, there shall be issued a warrant of arrest, in substantially the form set forth in the Appendix to this chapter.

B. It is the duty of the Marshal, personally, or through a duly constituted member of the police force of this City, or through any other person lawfully authorized so to act, to execute a warrant as promptly as possible.

Sec. 6-125. Procedures for bail or bond. Upon arrest, or upon appearance without arrest in response to citation or summons, or at any time before trial, before or after arraignment, the defendant shall be eligible to be released upon giving bail for his appearance in an amount and upon conditions fixed by this chapter or the judge, who shall prescribe appropriate rules of court for the receipt of bail. In case of arrests made at night or under other conditions of emergency or when the judge is not available, the rules shall authorize the chief of police, or his designated representative, to accept a temporary cash bond of not less than One Hundred Dollars (\$100.00) but not more than the maximum monetary penalty provided by ordinance for the offense charged.

Sec. 6-126. Bond forfeiture, district court.

A. If, without sufficient excuse, a defendant fails to appear according to the terms or conditions of his bond, either for hearing, arraignment, trial or judgment, or upon any other occasion when his presence in court or before the magistrate may be lawfully required, the judge may direct that fact to be entered upon the court minutes, thereby declaring the bond to be forfeited. Without advancing court costs, the judge may then cause the forfeiture to be certified to the district court of the County, where it shall be entered upon the judgment docket and shall have the full force and effect of a district court judgment. At such time as the forfeiture is entered upon the district court judgment docket, the district court clerk shall proceed in accordance with the provisions of Sections 1330, 1332, 1333 and 1335 of Title 59 of the Oklahoma Statutes and surety shall have all remedies available under the provisions of Sections 1108 of Title 22 and Sections 1301 through 1340 of Title 59 of the Oklahoma Statutes. Court costs shall be collectable from the proceeds of the bond.

B. A prosecution in a court provided for herein shall be a bar to prosecution in another court for the same or a lesser included offense.

Sec. 6-127. Arraignment and pleadings by defendant. Upon making his appearance before the court, the defendant shall be arraigned. The judge or the attorney of the City, shall read the complaint to the defendant, inform him of his legal rights, including the right of trial by jury, if available, and of the consequences of conviction, and ask him whether he pleads guilty or not guilty. If the defendant pleads guilty, the court may proceed to judgment and sentence or may continue the matter for subsequent disposition. If the plea is not guilty, and the case is not for jury trial, the court may proceed to try the case, or may set it for hearing at a later date.

Sec. 6-128. Trials and judgments.

A. Before trial commences, either party, upon good cause shown, may obtain reasonable postponement thereof.

B. The defendant must be present in person at the trial or be represented by counsel if permitted by the judge.

C. In all trials, as to matters not covered in this chapter, or by the statutes relating to municipal criminal courts, or by rules duly promulgated by the Supreme Court of Oklahoma, the procedure applicable in trials of misdemeanors in the district courts shall apply to the extent that they can be made effective.

D. If the defendant pleads guilty or is convicted after the trial, the court must render judgment thereon, fixing the penalty within the limits prescribed by the applicable ordinance and imposing sentence accordingly.

E. At the close of trial, judgment must be rendered immediately by the judge who shall cause it to be entered in his docket.

F. If judgment is of acquittal, and the defendant is not to be detained for any other legal cause, he must be discharged at once.

G. A judgment that the defendant pay a fine may also direct that he be imprisoned until the fine is satisfied at the rate of one day imprisonment for each Five Dollars (\$5.00) of fine or as set out in Subsection H hereof for defendants who are without means to make such payment.

H. If the defendant is without means to pay the fine or costs, the municipal judge may direct the total amount due to be entered upon the court minutes and to be certified to the district court of the County where it shall be entered upon the district court judgment docket and shall have the full force and effect of a district court judgment. Thereupon the same remedies shall be available for the enforcement of the judgment as are available to any other judgment creditor.

Sec. 6-129. Trial by jury and waiver.

A. In all prosecutions for violations of ordinances punishable by fine of more than Five Hundred Dollars (\$500.00), or by imprisonment, or by both such fine and imprisonment, trial shall be by jury, unless waived by the defendant. If trial by jury is waived, trial shall be to the court.

B. At arraignment, the defendant shall be asked whether he demands or waives trial by jury. His election shall be recorded in the minutes of the arraignment and entered on the docket of the court respecting proceedings in the case.

C. An election waiving jury trial, made at arraignment, may be changed by the defendant at any time prior to the day for which trial by the court is set; an election demanding jury trial may be changed at any time prior to the commencement of proceedings to impanel the jury for trial, but if that change occurs after the case has been set for jury trial, it may not thereafter be rechanged so as again to demand trial by jury.

Sec. 6-130. Juror and jury trial procedures.

A. Whenever a calendar has been made up for the trial of cases by jury, the judge shall request, in writing, the presiding judge of the district court for this judicial district to cause the names of a stated number of jurors, deemed sufficient to dispose of the cases on the calendar, to be drawn from the jury wheel in accordance with the governing statutes of the state, and to be certified by the clerk of the district court to the judge of the municipal court. The request shall be made in time for the list to be certified and the jurors to be summoned legally before the trial of the calendar begins. If it is anticipated that the completion of the calendar will required more than two (2) weeks, the request for jurors shall specify the number required for each two-week period, as provided by law for the drawing of jurors for the district court. Additional drawing of other names also may be requested by the judge, when necessary, in accordance with the law for such additional drawings in the district court. If, in the future, provisions of the law respecting the drawing of jury lists for the district court are changed, the judge shall take such steps, in requesting jury lists for the court, as are necessary with the state law.

B. Upon receipt of the jury list, the clerk of the court shall cause a summons substantially in the form set forth in the Appendix to this chapter.

C. Service shall be made, as the judge may prescribe by rule or direct by order, either in person upon the juror by the marshal of the court or by any member of the police force of this city, or by the clerk of the court, through certified mail, directed to the juror at his address as given in the jury list with request for a personally signed return receipt. In any proceeding wherein service of summons by mail is in issue, evidence of the due mailing of the summons by the clerk or a member of his staff and the presentation of an official postal return receipt purportedly signed by the addressee shall be prima facie evidence that the summons was duly received by the addressee and therefore, that he was properly served therewith.

D. A jury in the court shall consist of six (6) jurors, good and lawful men or women, citizens of the County of Wagoner possessing the qualifications of jurors in district court.

E. After the jurors are sworn, they must sit together and hear the proofs and oral arguments of the parties, which must be delivered in public and in the presence of the defendant.

F. A verdict of the jury may be rendered by the vote of five (5) jurors.

G. In all actions tried before a jury, the judge shall determine all questions of law, including questions as to the introduction of evidence, arising during the trial. He also shall instruct the jury as to the law.

H. The verdict of the jury, in all cases, must be general. When the jury has arrived at its verdict, it must deliver the verdict publicly to the court. The judge must enter the verdict in the docket or cause it to be so entered.

I. The jury must not be discharged after the case is submitted to it until a verdict is rendered, unless the judge, for good cause, discharges it sooner, in which event the court may proceed again to trial, and so on, until a verdict is rendered.

Sec. 6-131. Witness fees. Witnesses in any proceedings in the court other than the police officers or peace officers shall be entitled to a fee as set by the City per each day of attendance, plus mileage for each mile actually and necessarily traveled in going to and returning from the place of attendance if their residence is outside the limits of the municipality. However, no witness shall receive fees or mileage in more than one case for the same period of time or the same travel. A defendant seeking to subpoena witnesses must deposit with the clerk a sum sufficient to cover fees and mileage for one day of attendance for each witness to be summoned, but such deposit shall not be required from an indigent defendant who files an affidavit setting out:

1. The name of not more than three (3) witnesses;
2. That the defendant, be reason of his poverty, is unable to provide the fees and mileage allowed by law;

3. That the testimony of the witnesses is material; and
4. That their attendance at the trial is necessary for his proper defense.

The fees of such witnesses shall be paid by the City.

Sec. 6-132. Compensation of jurors. Jurors shall receive for their services a *per diem* fee as set by the City. The claims for such compensation shall show the location of the juror's residence and the route and miles traveled, and must be verified as other claims against the City are verified. Jurors shall be paid out of the general funds of the City.

Sec. 6-133. Sentencing.

A. The judge may suspend, modify, defer or reduce a sentence in accordance with Sections 27-123 and 27-124 of Title 11 of the Oklahoma Statutes.

B. A judge who is licensed to practice law in this state in imposing judgment and sentence, at his discretion, is empowered to modify, reduce, or suspend or defer the imposition of such sentence or any part thereof and to authorize probation for a period not to exceed six (6) months from the date of sentence, under such terms or conditions as the judge may specify. Procedures relating to suspension of the judgment or costs or both shall be as provided in Section 27-123 of Title 11 of the Oklahoma Statutes. Upon completion of the probation term, the defendant shall be discharged without a court judgment of guilt, and the verdict, judgment of guilty or pleas of guilty shall be expunged from the record and the charge dismissed with prejudice to any further action. Upon a finding of the court that the conditions of probation have been violated, the judge may enter a judgment of guilty. The judge may continue or delay imposing a judgment and sentence for a period of time not to exceed six (6) months from the date of sentence. At the expiration of such period of time the judge may allow the municipal attorney to amend the charge to a lesser offense. If a deferred sentence is imposed, an administrative fee of not to exceed Two Hundred Dollars (\$200.00) may be imposed as costs in the case.

Sec. 6-134. Imprisonment.

A. If, after conviction, judgment of imprisonment is entered, a copy thereof, certified by the clerk, shall be delivered to the Marshal, the sheriff of the County or other appropriate police officer. Such copy shall be sufficient warrant for execution of the sentence.

B. All prisoners confined to jail on conviction or on plea of guilty, upon request of the prisoner and if approved by the City, may be allowed to work on the public streets, avenues, alleys, parks, buildings, or other public premises or property. For each day of such work, the prisoner shall be credited for serving two (2) days of imprisonment under his sentence.

C. The Marshal, subject to the direction of the Mayor, shall direct where the work shall be performed. The head of the department in charge of the place where the work is to be performed, himself, or some person designated by him, shall oversee the work. If a guard is necessary, the Marshal shall make provision therefor.

Sec. 6-135. Fines and costs. If judgment of conviction is entered, the clerk of the court shall tax the costs to the defendant, which shall be the maximum allowed by state law, plus the fees and mileage of jurors and witnesses.

Sec. 6-136. Failure to appear, court costs, penalty. Any person who files a complaint in the municipal court against another person or persons and fails to appear to prosecute or testify on the complaint so filed, or moves to dismiss the same without court approval, is liable for, and shall be assessed and pay all court costs incurred in the filing of the complaint. Any defendant failing to appear as required shall constitute a separate offense, punishable as provided in this Code.

Sec. 6-137. Penalty assessments.

A. Any person convicted of an offense punishable by a fine of Ten Dollars (\$10.00) or more or by incarceration, excluding parking and standing violations, or any person forfeiting bond when charged with such an offense, shall be ordered by the court to pay a separate penalty assessment as required by law, which shall be in addition to and not in substitution for any and all fines and

penalties otherwise provided for by law for such offense. The court shall provide for separate bail for the penalty assessment. A defendant admitted to bail on an undertaking by a surety may include the amount of the penalty assessment in the undertaking.

B. Upon conviction or bond forfeiture, the court shall collect the penalty assessment and deposit it in an account created for that purpose. As an administrative fee for handling funds collected as a penalty assessment, the court is authorized to retain a percent of such monies as authorized by law and may also retain all interest accrued thereon prior to the due date for deposits as provided in this subsection. The remainder of such monies shall be forwarded quarterly by the court clerk to the state treasury. Deposits shall be due July 15 for the preceding quarter ending June 30, October 15 for the preceding quarter ending September 30, January 15 for the preceding quarter ending December 31, and April 15 for the preceding quarter ending March 31.

C. As used in this section, “convicted” means any final adjudication of guilt, whether pursuant to a plea of guilty or *nolo contendere* or otherwise, and any deferred or suspended sentence or judgment.

be punished as provided in this code. Each day of noncompliance with this Chapter shall constitute a separate offense.

As used herein, “place of assembly” means a room or space which is not capable of being occupied for lodging purposes and which is used for educational, recreational, or amusement purposes and shall include: dance halls; cabarets; night clubs; restaurants; any room or space for public or private banquets, feasts, socials, card parties, or weddings; lodge and meeting halls or rooms; skating rinks; gymnasi-ums; swimming pools; billiards, bowling, and table tennis rooms; halls or rooms used for public or private catering purposes; funeral parlors; markets; recreational rooms; concert halls; broadcasting studios; and all other places of similar type of occupancy.
9. “Tax” shall mean the tax levied pursuant to this Chapter.

Sec. 7-603. Tax levied. There is hereby levied an excise tax of four percent (4%), but not less than five dollars (\$5.00) per day, on the gross receipts derived from rentals received from occupancy of hotel rooms within the City.

Sec. 7-604. Tax to be designated. The operator shall separately designate, charge, and show all taxes on all bills, statements, receipts, or any other evidence of charges or payment of rent for occupancy issued or delivered by the operator.

Sec. 7-605. Operator responsible for collection. The operator shall be responsible for the collection of the tax levied by the preceding section from the occupant and shall be liable to the City for said tax.

Sec. 7-606. Discount. In order to remunerate an operator for keeping tax records, filing reports, and remitting the tax when due, a discount equal to that allowed by the Oklahoma Tax Commission for the collection of sales tax shall be allowed upon all taxes paid prior to the time they become delinquent.

Sec. 7-607. Records. It shall be the duty of every operator required to make a return and pay any tax under this Chapter to keep and preserve suitable records of the gross daily rentals together with other pertinent records and documents which may be necessary to determine the amount of tax due hereunder and such other records as will substantiate and prove the accuracy of such returns. All such records shall remain in the City and be preserved for a period of three (3) years, unless the Director, in writing, has authorized their destruction or disposal at an earlier date, and shall be open to examination at any time by the director or by any of his duly authorized agents. The burden of proving that a sale was not a taxable sale shall be upon the operator who made the sale.

Sec. 7-608. Returns.

A. The tax levied hereunder shall be due and payable to the Director on the first day of each month, except as herein provided, by any person liable for the payment of any tax due under this Chapter. For the purpose of ascertaining the amount of the tax payable under this Chapter, it shall be the duty of all operators, on or before the 15th day of each month, to deliver to the Director, upon forms prescribed and furnished by him, returns, under oath, showing the gross receipts or gross proceeds arising from rents received from occupancy of hotel rooms during the preceding calendar month. Such returns shall show such further information as the Director may require to correctly compute and collect the tax herein levied. In addition to the information required on returns, the Director may request and the operator shall furnish any information deemed necessary for a correct computation of the tax levied herein. Such operator shall compute and remit to the Director the required tax due for the preceding calendar month. The remittance or remittances of the tax shall accompany the returns herein required. If not paid on or before the 15th of such month, the tax shall be delinquent after such date; provided, that no interest or penalty shall be charged on such return if filed on or before the 20th day of such month.

B. The Director may permit or require returns to be made by shorter or longer periods and upon such dates as he may specify. The form of return shall be prescribed by the Director and shall contain such information as he may deem necessary for the proper administration of this Chapter. The Director may require amended returns to be filed with twenty (20) days after notice, which amended return shall contain the information specified in the notice.

Sec. 7-609. Payment of tax. At the time of filing a return of occupancy and of rents, each operator shall pay to the director the tax imposed by this article upon the rents included in such return, as well as all other monies collected by the operator acting or purporting to act under the provisions of this Chapter.

Sec. 7-610. Bond required. Where the Director believes that any operator is about to cease business, leave the State, or remove or dissipate assets, or for any other similar reason he deems it necessary in order to protect revenues under this article, he may require such operator to file with the City a bond issued by a surety company authorized to transact business in this State in such amount as the director may fix to secure the payment of any tax or penalties and interest due, or which may become due, from such operator. In the event that the Director determines that an operator is to file such bond, he shall give notice to such operator specifying the amount of bond required, which shall in no event exceed twice the amount of the sum in controversy. The operator shall file such bond within five (5) days after receiving such notice unless within such five (5) days the operator shall request in writing a hearing before the Council at which time the necessity and amount of the bond shall be determined

by the Council. Such determination shall be final and shall be complied with within fifteen (15) days thereafter. In lieu of such bond, securities approved by the director or cash in such amount as he may prescribe may be deposited with the Director, who may at any time after five (5) days notice to the depositor apply them to any tax and/or any penalties due, and for that purpose the securities may be sold at private or public sale.

Sec. 7-611. Assessment and determination of tax. If a return required by this Chapter is not filed, or if a return when filed is incorrect or insufficient, the amount of tax due shall be assessed by the Director from such information as may be obtainable and, if necessary, the tax may be estimated on the basis of external indices, such as number of rooms, location, scale of rents, comparable rents, types of accommodations and services, number of employees, or other factors. Written notice of such assessments shall be given to the person liable for the collection and payment of the tax. Such assessment shall finally and irrevocably fix and determine the tax unless the person against whom it is assessed, within ninety (90) days after the giving of notice of such assessment, shall apply in writing to the Council for a hearing or unless the director upon his own initiative shall reassess the same. After such hearing, the Council shall give written notice of its determination to the person against whom the tax is assessed and such determination shall be final.

Sec. 7-612. Refunds.

A. The Director shall refund or credit any tax erroneously, illegally, or unconstitutionally collected if written application to the director for such refund shall be made within ninety (90) days from the date of payment thereof. For like causes and in the same period, a refund may be made upon the initiative and the order of the Director. Whenever a refund is made, the reasons therefor shall be stated in writing. Such application may be made by the person upon whom such tax was imposed and who has actually paid the tax. Such application may also be made by the person who has collected and paid such tax to the Director provided that the application is made within ninety (90) days of the payment by the occupant to the operator, but no refund of money shall be made to the operator until he has repaid to the occupant the amount for which the application for refund is made. The Director, in lieu of any refund required to be made, may allow credit therefor on payments due from the applicant.

B. Upon application for a refund the Director may receive evidence with respect thereto, and make such investigation as he deems necessary. After making a determination as to the refund, the Director shall give notice thereof to the applicant. Such determination shall be final unless the applicant, within ninety (90) days after such notice, shall apply in writing to the Council for a hearing. After such hearing, the Council shall give written notice of its decision to the applicant.

Sec. 7-613. Notices. Any notice provided for under this Chapter shall be deemed to have been given when such notice has been delivered personally to the operator or deposited in the United States Mail addressed to the last known address of the operator.

Sec. 7-614. Remedies exclusive. The remedies provided in this Chapter shall be exclusive remedies available to any person for the review of tax liability imposed by the Chapter.

Sec. 7-615. Powers of Director. In addition to all other powers granted to the director, he is hereby authorized and empowered:

1. To make, adopt, and amend rules and regulations appropriate to the collection of taxes pursuant to this Chapter;
2. To extend for cause shown the time for filing any return for a period not exceeding sixty (60) days; and, for cause shown, to waive, remit, or reduce penalties or interest;
3. To delegate his function hereunder to an assistant or other employee or employees of the City;
4. To assess, reassess, determine, revise, and readjust the taxes imposed by this Chapter; and
5. To prescribe methods for determining the taxable and nontaxable rents

Sec. 7-616. Registration certificates; certificates of authority. Every operator shall file with the Director a registration certificate in a form prescribed by said director within ten (10) days after the effective date of this Chapter or, in the case of operators commencing business or opening new hotels after such effective date, within three (3) days after such commencement or opening. The Director shall, within five (5) days after the filing of such certificate, issued without charge to each operator a certificate of authority empowering such operator to collect the tax from the occupant and duplicates thereof for each additional hotel. Each certificate or duplicate shall state the hotel to which it is applicable. Such certificate of authority shall be permanently displayed by the operator in such manner that it may be seen and come to the notice of all occupants and persons seeking occupancy. Such certificates shall be nonassignable and nontransferable and shall be surrendered immediately to the Director upon the cessation of business at the hotel, or upon its sale or transfer.

Sec. 7-617. Administration. One (1) percent of the gross receipts derived from taxes collected pursuant to this Chapter shall be retained by the office of the Director for the purpose of administering and collecting the tax.

Sec. 7-618. Interest. If any tax levied by this article becomes delinquent, the person responsible and liable for such tax shall pay interest on such unpaid tax at the rate of one and one-half percent (1 1/2%) per month on the unpaid balance from the date of delinquency until said unpaid balance is paid in full.

Sec. 7-619. Records confidential. The confidential and privileged nature of the records and files concerning the administration of the tax is legislatively recognized and declared; and to protect the same, the provisions of 68 Oklahoma Statutes 1985, Section 205 of the State Sales Tax Code, and each subsection thereof, are hereby adopted by reference and made fully effective and applicable to the administration of this Chapter as if herein set forth.

Sec. 7-620. Fraudulent returns. The willful failure or refusal of any operator to make reports and remittances herein required, or the making of any false or fraudulent report for the purpose of avoiding or escaping payment of any tax or portion thereof rightfully due under this Chapter shall be guilty of a misdemeanor, and upon conviction, shall be punished as provided in this code.

Sec. 7-621. Amendments. The Council may, by ordinance duly enacted, make such administrative and technical changes or additions in the method and manner of administering and enforcing this Chapter as may be necessary or proper for efficiency and fairness, except that the rate of the tax herein provided shall not be changed without approval of the qualified voters of the City as provided by law.

Sec. 7-622. Provisions cumulative. The provisions hereof shall be cumulative and in addition to any and all other taxing provisions of city ordinances.

Sec. 8-401. Nuisance defined.

A. A nuisance is unlawfully doing an act, or omitting to perform a duty, or is any thing or condition which either:

1. Unreasonably annoys, injures or endangers the comfort, repose, health or safety of others;
2. Offends decency;

B. A public nuisance is one which affects at the same time an entire community or neighborhood or any considerable number of persons, although the extent of the annoyance or damage inflicted upon the individuals may be unequal.

C. Every nuisance not included in the preceding subsection is a private nuisance.

Sec. 8-402. Persons responsible. No person in charge or control of any property in the City, whether as owner, tenant occupant, lessee or otherwise, shall allow a nuisance to exist on the property. Every successive owner of property who neglects to abate a continuing nuisance upon or in the use of such property, created by a former owner, is liable therefore in the same manner as the one who first created it.

Sec. 8-403. Time does not legalize. No lapse of time can legalize a public nuisance amounting to an actual obstruction of public right.

Sec. 8-404. Remedies against public nuisances. The remedies against a public nuisance are:

1. Prosecution on complaint before the municipal court;
2. Prosecution on information or indictment before another appropriate court;

 - b. By the City in accordance with law or ordinance.

Sec. 8-406. Power to define and summarily abate nuisances. As provided in Section 16 of Title 50 of the Oklahoma Statutes, the City has the power to determine what is and what shall constitute a nuisance within its corporate limits and, for the protection of the public health, the public parks, and the public water supply, outside of its corporate limits. Whenever it is practical to do so, the City has the power summarily to abate any such nuisance after notice to the owner and an opportunity for him to be heard, if this can be done.

Sec. 8-407. Certain public nuisances defined. In addition to other public nuisances declared by other sections of this code or law, the following are hereby declared to be public nuisances:

1. The sale, or offering for sale, of unwholesome food or drink; or the keeping of place where such sales or offerings are made;

4. The keeping of a place where persons gamble, whether by cards, slot machines, punchboards or otherwise;
5. The keeping of a place where prostitution, illicit sexual intercourse, or other immoral acts are practiced;

10. The operation or use of any electrical apparatus or machine which materially or unduly interferes with radio or television reception by others;

12. Permitting water or other liquid to flow or fall, or ice or snow to fall, from any building or structure upon any street or sidewalk;
13. All wells, pools, cisterns, bodies or containers of water in which mosquitoes breed or are likely to breed, or which are so constructed, formed, conditioned, or situated as to endanger the public safety;
14. Rank weeds or grass, carcasses, accumulations of manure, refuse, or other things, which are, or are likely to be, breeding places for flies, mosquitoes, vermin, or disease germs; and the premises on which such exist;
15. Any building or structure which is dangerous to the public health or safety because of damage; decay or other condition;

20. Any stable or other place where animals are kept that may become obnoxious or annoying to any resident of this city, by reason of any noise or noises made by the animal therein, or by reason of lack of sanitation, is hereby declared to be a nuisance; and
21. Every building or other structure that shall become unsafe and dangerous from fire, decay or other cause, or shall become hazardous from fire, by reason of age, decay or construction, location or other cause, or shall be detrimental to the health, safety or welfare of this city or its inhabitants from any cause, is hereby declared to be a nuisance. The above enumeration of certain public nuisances shall be cumulative and not limit other provisions of law or ordinances defining public nuisances either in more general or more specific terms.

Sec. 8-408. Summary abatement of nuisances.

A. Some nuisances are of such nature as to constitute a grave and immediate danger to the peace, health, safety, morals or welfare of one or more persons or of the public generally. It is recognized that circumstances may be such as to justify, and even to require the mayor or other appropriate officer or agency of the city government to take immediate and proper action summarily to abate such nuisances, or to reduce or suspend the danger until more deliberate action can be taken toward such abatement.

B. Any resident may submit through or with the consent of the Mayor to the code enforcement officer, a statement as to the existence of a nuisance as defined by the ordinances of the city or law, and a request or recommendation that it be abated.

C. Upon receiving the complaint or observing the nuisance himself, the code enforcement officer shall investigate the alleged nuisance. If he determines that a public nuisance exists, he will notify the person responsible for the nuisance. Such notice to the owner and other persons concerned shall be given in writing, by mail or by service by a police officer if their names and addresses are known; but, if the names and addresses are not known, and the public peace, health, safety, morals, or welfare would not be unduly jeopardized by the necessary delay, a notice of the hearing shall be published in a paper of general circulation within the City. Such notice shall provide not less than ten (10) days nor more than sixty (60) days, at the discretion of the Mayor or his designee, in which to abate such nuisance or to request a hearing as hereinafter set forth.

D. If the person receiving the abatement notice wishes a hearing, he must request it in writing within ten (10) days and mail or file it with the City Clerk. The hearing on his request will be before the Mayor and will be held as soon as possible after the request is filed. The Mayor shall render his decision by written memorandum and file the same with the City Clerk, who shall thereupon mail a copy to the person or persons requesting the hearing at the last known mailing address.

E. If the person responsible for a nuisance wishes to appeal the Mayor's decision, he may request a hearing before the Council. Such request must be in writing and submitted to the city clerk within five (5) days after notice of the decision of the Mayor is mailed to him.

F. The Council shall determine whether or not the alleged nuisance is a nuisance in fact. For the purpose of gathering evidence on the subject, the Council shall have power to subpoena and examine witnesses, books, papers and other effects.

G. If the Council finds that a nuisance exists, it shall direct the owner or other persons responsible for or causing the nuisance to abate it within a specified time if the peace, health, safety, morals or welfare of the person or persons or public adversely affected would not be unduly jeopardized by the consequent delay. If such peace, health, safety, morals, or welfare would be unduly jeopardized

by the consequent delay, or if the owner or other persons responsible for or causing the nuisance do not abate it within the specified time, the council shall direct the mayor to abate the nuisance or to have it abated, if summary abatement is practical, as authorized by Section 16 of Title 50 of the Oklahoma Statutes. The City Clerk shall send a statement of the cost of such summary abatement to the owner or other persons responsible for or causing the nuisance, as may be just under the circumstances, if the names and addresses are known. Until paid, such cost shall constitute a debt to the City, collectible as other debts of the City may be collected.

Sec. 8-409. Abatement by suit in district court. In cases where it is deemed impractical summarily to abate a nuisance, the City may bring suit in the district court of the county where the nuisance is located, as provided in Section 17 of Title 50 of the Oklahoma Statutes.

Sec. 8-410. Cost of abatement. If the person responsible for the nuisance is unable to pay for its removal, the work may be done by the employees of this City under supervision of the Mayor or his designee, or it may be let by contract, after appropriate notice, in the manner for letting other contracts.

Sec. 8-411. Cost to be determined, statement of cost to be sent. Upon completion of the work ordered to be performed under this Chapter, the City Clerk shall prepare a report on the cost thereof. Such report shall be itemized as to each tract, as follows:

1. labor;
2. machinery rental or depreciation;
3. fuel and supplies;
4. cost of notice; and
5. other costs.

The mayor shall determine the total actual costs of the work, and shall direct the City Clerk to forward a statement and demand payment thereof by certified mail with return receipt requested to the owner of the property at the address shown by the current tax rolls in the office of the County Treasurer. If the statement is not paid within twenty (20) days after such statement is mailed, the Council may direct the City Attorney to institute action to establish a lien against the property on which such work was done and to request the court to cause such property to be sold and the lien paid.

Sec. 8-412. Failure to pay costs, costs to be certified to County Treasurer. In the event the City does not elect to proceed by legal action as set forth herein, then six (6) months from the date of mailing the notice prescribed in the preceding section, the City Clerk shall forward a certified statement of the amount of such costs to the County Treasurer, to be levied upon the property and to be collected by the County Treasurer in the manner prescribed for ad valorem taxes by the laws of this state.

Sec. 8-413. Nuisance unlawful. It is unlawful for any person, including but not limited to any owner, lessee, or other person to create or maintain a nuisance within the City, or to permit a nuisance to remain on premises under his control within the City.

Sec. 8-414. Damages and prosecution for public offense. The fact that the City has abated and removed a nuisance shall in no way excuse the party responsible therefore from any damages which may have resulted prior thereto. Neither shall the order of abatement prevent the Marshall or other person from filing a complaint where the nuisance constitutes a public offense. The Marshall may file complaint in each and every instance where the nuisance amounts to a public offense, and the person responsible therefore shall be prosecuted on such complaint; on determination of guilt, he shall be punished as provided for punishment of public offenses.

Sec. 8-415. Health nuisances; abatement.

A. Pursuant to authority granted by Section 1-1011 of Title 63 of the Oklahoma Statutes, the health officer shall have authority to order the owner or occupant of any private premises in the City to remove from such premises, at the owner's expense, any source of filth, cause of sickness, condition conducive to the breeding of insects or rodents that might contribute to the transmission of disease, or any other condition adversely affecting the public health, within twenty-four (24) hours, or within

such other time as may be reasonable, and a failure to do so shall constitute an offense. Such order shall be in writing and may be served personally on the owner or occupant of the premises, or authorized agent thereof, by the health officer or by a police officer, or a copy thereof may be left at the last usual place of abode of the owner, occupant, or agent, if known and within the state. If the premises are unoccupied and the residence of the owner, occupant, or agent is unknown, or is without the state, the order may be served by posting a copy thereof on the premises, or by publication in at least one issue of a newspaper having general circulation in the City.

B. If the order is not complied with, the health officer may cause the order to be executed and complied with, and the cost thereof shall be certified to the City Clerk, and the cost of removing or abating such nuisance shall be added to the utility bill of the owner or occupant if he is a user of utilities from the City. If such owner or occupant is not a user of any city utility service, such cost, after certification to the City Clerk, may be collected in any manner in which any other debt due the city may be collected.

Sec. 8-416. Toilet facilities required; nuisance.

A. For the purpose of this section, the following terms shall have the respective meanings ascribed to them herein:

1. "Human excrement" means the bowel and kidney discharge of human beings;

The closets and toilets hereby required shall be of the sanitary water closet type when located within two hundred (200) feet of a sanitary sewer and accessible thereto, and of the sanitary water closet type (notwithstanding a greater distance from a sanitary sewer) or the water closet type emptying into a septic tank system. A septic tank system or a pit privy may be used in such cases only if it meets the standards of and is approved by the State Health Department.

C. All human excrement disposed of within this City shall be disposed of by depositing it in closets of the type provided for in this section. It is unlawful for any owner of property within the City to permit the disposal of human excrement thereon in any other manner, or for any person to dispose of human excrement within the City in any other manner.

D. Any privy shall be kept clean and sanitary at all times, and the covers of the seats of privies shall be kept closed at all times when the privies are not being used. No wash water, kitchen slop, or anything other than human excrement and toilet paper shall be emptied into a privy. No excrement from any person suffering from typhoid fever, dysentery, or other serious bowel disease shall be deposited in any sanitary water closet until it is disinfected in such a manner as may be prescribed by the health officer.

E. All facilities for the disposal of human excrement in a manner different from that required by this section, and all privies and closets to constructed, situated, or maintained as to endanger the public health, are hereby declared to be public nuisances, and may be dealt with and abated as such. Any person maintaining any such nuisance is guilty of an offense, and each day upon which any such nuisance continues is a separate offense.

Sec. 8-417. Junk yards, abatement.

A. Motor vehicle wrecking and salvage yards, and junk yards, and storage yards, hereinafter referred to as "junk yards" are hereby declared a public nuisance.

D. Any person who shall operate or maintain junk yards, or any part of any of them, or keep, store or pile property on junk yard premises, or any portion or part thereof, shall be deemed guilty of an offense. Every day of such operation or maintenance, or such keeping, storing or piling of property, shall constitute a separate offense.

E. Any owner, lessee or occupant of junk yard premises, or any portion or part thereof, who shall permit, consent to or acquiesce in the operation or maintenance of junk yards, or any of them, or any part of any of them, or the keeping, storing or piling of property on junk yard premises, or part or portion thereof, of which he is the owner, lessee or occupant, shall be deemed guilty of an offense. Every day of such permission, consent or acquiescence shall constitute a separate offense.

Sec. 8-418. Procedure cumulative. The various procedures for abating nuisances prescribed by this Chapter and by other provisions of law and ordinance shall be cumulative on the any other penalties or procedures authorized.

Sec. 8-419. Penalty. Any person, firm or corporation who violates any of the provisions of this chapter or shall allow the premises occupied to become unsanitary, or who shall in any manner violate any of the provisions of this chapter shall be deemed guilty of a misdemeanor and, upon conviction, shall be punished as provided in this Code.

| Sec. 8-604. | Clearing of premises. | 8.17 |
| Sec. 8-605. | Permit. | 8.18 |

Sec. 8-601. Report to be made, council consideration.

A. Any officer or employee of this City who discovers or receives a report of a dilapidated building which has become detrimental to the health, benefit and welfare of the public and the community or creates a fire hazard to the danger of property, shall report such conditions to the building official.

B. Upon receiving the report prescribed by the preceding subsection or upon receipt of equivalent information from any reliable source, the building official shall request that the Mayor place upon the agenda of the Council for hearing and consideration at any appropriate date of meeting thereof, such as will permit giving the notices prescribed by statutory law, the question whether such premises, by reason of the dilapidated condition and the building or buildings are detrimental to the health, benefit and welfare of the public and the community, or creates a fire hazard to the danger of property.

Sec. 8-602. Condemnation of dilapidated buildings, notice, removal, lien. The Council may cause dilapidated buildings within the City to be torn down and removed in accordance with the following procedure:

1. At least ten (10) days notice shall be given to the owner of the property before the council holds a hearing. Notice shall be given by posting on the property and by mail to the property owner at the address shown by the current year's tax rolls in the County Treasurer's office. Written notice shall also be mailed to any mortgage holder as shown by the records in the office of the County Clerk to the last-known address of the mortgagee. If neither the property owner nor mortgage holder can be located, notice may be given by posting a copy on the property or by publication in a newspaper of general circulation one time not less than ten (10) days prior to the hearing. At the time of mailing of notice to any property owner or mortgage holder, the City shall obtain a receipt of mailing from the postal service, which receipt shall indicate the date of mailing and the name and address of the mailer;

2. A hearing shall be held by the Council to determine whether the property is dilapidated and has thereby become detrimental to the health, benefit and welfare of the public and the community, or creates a fire hazard to the danger of the property;

3. Upon a finding that the condition of the property constitutes a detriment or a hazard, and that the property would be benefited by the removal of such conditions, the Council may cause the dilapidated building to be torn down and removed, and shall fix reasonable dates for the commencement and completion of the work. The Clerk shall immediately file a notice of dilapidation and lien with the County Clerk describing the property, the findings of the city at the hearing, and other requirements provided by law. The agents of the City are granted the right of entry on the property for the performance of the necessary duties as a governmental function of the City if the work is not performed by the property owner within dates fixed by the Council. Neither the City nor its officers or employees are liable for damages or loss of property due to the removal of a dilapidated building pursuant to this section;

4. The Council shall determine the actual cost of the dismantling and removal of dilapidated buildings, and any other expenses as may be necessary in conjunction therewith, including the cost of notice and mailing. The City Clerk shall forward a statement of such actual cost and a demand

for payment by mail to the property owner, and by mailing a copy to any mortgage holder, at the addresses named in paragraph 1 of this section. At the time of mailing of the statement of costs to any property owner or mortgage holder, the City shall obtain a receipt of mailing from the postal service which receipt shall indicate the date of mailing and the name and address of the mailer. If dismantling and removal of dilapidated buildings is done by the City, the cost to the property owner shall not exceed the actual cost of the labor, maintenance and equipment required for dismantling and removal of dilapidated buildings. If dismantling and removal of dilapidated buildings is done on a private contract basis, it shall be awarded to the lowest and best bidder;

5. If payment is not made within six (6) months from the date of the mailing of the statement, the City Clerk shall forward a certified statement of the amount of the cost to the County Treasurer and the same shall be levied on the property and collected by the County Treasurer as other taxes authorized by law. Until finally paid, the costs and interest thereon shall be the personal obligation of the property owner and the cost and the interest thereon shall be a lien against the property from the date the cost is certified to the County Treasurer, coequal with the lien of ad valorem taxes and all other taxes and special assessments and prior and superior to all other titles and liens against the property, and the lien shall continue until the cost shall be fully paid;

6. At any time prior to collection as provided for in this paragraph, the City may pursue any civil remedy for collection of the amount owing and interest thereon including an action *in personam* against the property owner and an action in rem to foreclose its lien against the property. A mineral interest, if severed from the surface interest and not owned by the surface owner, shall not be subject to any tax or judgment lien created pursuant to this section. Upon receiving payment, the City Clerk shall forward to the County Treasurer a notice of such payment and shall direct discharge of the lien;

7. The Council hereby designates the City Superintendent or his designee to perform the duties of the council under this section; and

8. For the purposes of this Chapter, "dilapidated building" means a structure where because of the neglect of necessary repairs or allowing it to fall into a state of decay or allowing it to fall into partial ruin to such an extent that said structure is a hazard to the health or safety or welfare of the general public. It does not include any property zoned and used for agricultural purposes.

Sec. 8-603. Boarding, securing dilapidated buildings.

A. After a building has been declared dilapidated, as provided in this code, and before the commencement of the tearing and removal of a dilapidated building, the City may authorize that such a building be boarded and secured.

B. The City may cause the premises on which an unsecured building is located to be cleaned of trash and weeds in accordance with the provisions of this Code.

C. The City may cause an unsecured building to be boarded and secured in accordance with the following procedures:

1. Before the Council orders such action, at least ten (10) days notice that such unsecured building is to be boarded and secured shall be given by mail to any property owners and mortgage holders as provided in this Code. At the time of mailing of notice to any property owner or mortgage holder, the City shall obtain a receipt of mailing from the postal service, which receipt shall indicate the date of mailing and the name and address of the mailer. A copy of the notice shall also be posted on the property to be affected. However, if neither the property owner nor mortgage holder can be located, notice may be given by posting a copy of the notice on the property or by publication as defined by law. Such notice shall be published one time, not less than ten (10) days prior to any hearing or action by the City pursuant to the provisions of this section. If the City anticipates summary abatement of a nuisance in accordance with the provisions of this section, the notice shall state:

- a. That any subsequent need for boarding and securing the building within a six-month period after the initial boarding and securing of the building pursuant to such notice may be summarily boarded and secured by the City;
 - b. That the costs of such boarding and securing shall be assessed against the owner; and
 - c. That a lien may be imposed on the property to secure such payment, all without further prior notice to the property owner or mortgage holder;
2. The owner of the property may give his written consent to the City authorizing the boarding and securing of such unsecured building and to the payment of any costs incurred thereby. By giving written consent, the owner waives his right to a hearing by the City;
3. If the property owner does not give his written consent to such actions, a hearing may be held by the Council to determine whether the boarding and securing of such unsecured building would promote and benefit the public health, safety or welfare. Such hearing may be held in conjunction with a hearing on the accumulation of trash or the growth of weeds or grass on the premises of such unsecured building held pursuant to the provisions of this Title. In making such determination, the City shall apply the following standard:
 - a. Whether the boarding and securing thereof would make such building less available for transient occupation;
 - b. Whether the boarding and securing thereof would decrease a fire hazard created by such building; or
 - c. Whether the boarding and securing thereof would decrease the hazard that such building would constitute an attractive nuisance to children.

Upon making the required determination, the city may order the boarding and securing of the unsecured building;

4. After the City orders the boarding and securing of such unsecured building, the Clerk shall immediately file a notice of unsecured building and lien with the County Clerk describing the property, stating the findings of the city at the hearing at which such building was determined to be unsecured, and stating that the City claims a lien on the property for the costs of boarding and securing such building and that such costs are the personal obligation of the property owner from and after the date of filing the notice;
5. Pursuant to the order of the City, the agents of the City are granted the right of entry on the property for the performance of the boarding and securing of such building and for the performance of all necessary duties as a governmental function of the City;
6. After an unsecured building has been boarded and secured, the Council shall determine the actual costs of such actions and any other expenses that may be necessary in conjunction therewith including the cost of the notice and mailing. The Clerk shall forward a statement of the actual costs attributable to the boarding and securing of the unsecured building and a demand for payment of such costs, by mail to any property owners and mortgage holders as provided in this Chapter. At the time of mailing of the statement of costs to any property owner or mortgage holder, the City shall obtain a receipt of mailing from the postal service, which receipt shall indicate the date of mailing and the name and address of the mailer;
7. If the City boards and secures any unsecured building, the cost to the property owner shall not exceed the actual cost of the labor, materials and equipment required for the performance of such actions. If such actions are done on a private contract basis, the contract shall be awarded to the lowest and best bidder;
8. Sec. 10-701. Findings and intent. The City Council finds that youth addiction to tobacco products is a public health problem with grave health consequences. In recognition that almost 90 percent of all smokers begin smoking by the age of 18, action is needed to curtail the easy access of minors to cigarettes and other addictive tobacco products. Furthermore, the City Council finds that the Oklahoma State Legislature has limited the powers granted to local governments to address the problem of youth access to tobacco. Therefore, the intent of this ordinance is to: 1) implement the strictest and most enforceable system allowed under Oklahoma state law to prevent the illegal sale of cigarettes and other tobacco products to minors; 2) periodically amend and update this ordinance as necessary to best utilize any applicable powers which may be returned to Oklahoma municipalities in the future; and 3) educate, encourage and assist underage tobacco users in ceasing all use of addictive tobacco products, preferably before daily use of such products is initiated.

Sec. 10-702. Definitions. As used in this Chapter:

C. Proof that the defendant demanded, was shown, and reasonably relied upon proof of age shall be a defense to any action brought pursuant to this section. A person cited for violating this section shall be deemed to have reasonably relied upon proof of age, and such person shall not be found guilty of the violation if such person proves that:

1. The individual who purchased or received the tobacco product or vapor product presented a driver license or other government-issued photo identification purporting to establish that such individual was eighteen (18) years of age or older; or
2. The person cited for the violation confirmed the validity of the driver license or other government-issued photo identification presented by such individual by performing a transaction scan by means of a transaction scan device.

Provided, that this defense shall not relieve from liability any person cited for a violation of this section if the person failed to exercise reasonable diligence to determine whether the physical description and picture appearing on the driver license or other government-issued photo identification was that of the individual who presented it. The availability of the defense described in this subsection does not affect the availability of any other defense under any other provision of law.

Sec. 10-704. Receipt of tobacco products by a minor. It shall be unlawful and constitute a misdemeanor for a person who is less than eighteen (18) years of age to purchase, receive or accept receipt of, or have in their possession, a tobacco product, or to present or offer to any person any purported proof of age which is false or fraudulent, or not actually his or her own, for the purpose of purchasing or receiving any tobacco product. In exercising this authority, the appropriate personnel, contractor or utility company shall erect or cause to be erected proper control devices and barricades to warn and notify the public that the street has been closed to traffic.

Sec. 15-221. Disposition and records of traffic citations and complaints.

A. Every police officer upon issuing a traffic citation to an alleged violator of any provision of this traffic ordinance, shall deposit the original and a duplicate copy of the citation to an immediate superior officer who shall cause the original to be delivered to the municipal court of the city and the duplicate copy to the central records section of police department. The second duplicate copy of the citation shall be retained in the traffic citation book and shall be delivered by such superior officer to the City Clerk together with such book when all traffic citations therein have been issued.

B. Upon the filing of such original citation in the municipal court of the City the citation may be disposed of by the City Attorney, by trial in the court or by other official action by a judge of the court, including the settlement of bail or the payment of a fine, or may be dismissed by the judge, if in his opinion, the actions complained of do not constitute a violation of traffic ordinances.

C. The chief of police shall require the return to him each traffic citation and all copies thereof except that copy required to be retained in the book as provided herein, which has been spoiled or upon which an entry has been made, and has not been issued to an alleged violator.

traffic citation was affixed a letter informing him of the violation and warning him that in the event such letter is disregarded for the specified period of days, a warrant of arrest may be issued. A. Whenever any roadway has been divided into two (2) or more clearly marked lanes for traffic, in addition to all other rules consistent with this subsection, a vehicle shall be driven as nearly as practical entirely within a single lane and shall not be moved from the lane until the driver has first ascertained that the movement can be made with safety and has signaled for a changed of course.

B. Where streets or roadways do not have marked traffic lanes, vehicles shall nevertheless keep in line or follow a straight course as nearly as practical and shall not weave in and out or turn from side to side unnecessarily. Vehicles shall move to the right or left only as necessary in slowing or stopping adjacent to the curb, in passing slow moving vehicle or making a proper approach for a turn, and this only after the driver has first ascertained that such movement can be made safely and has signaled for a change of course.

C. Upon a roadway which has been divided into three (3) lanes, a vehicle shall not be driven in the center lane except when overtaking and passing another vehicle where the roadway is clearly visible and such center lane is clear of traffic within a safe distance, or in preparation for a left turn, or where such center lane is at the time allocated exclusively to traffic moving in the direction the vehicle is proceeding and is clearly marked to give notice of such allocation.

D. Official signs may be erected directing slow-moving traffic to use a designated lane or designating those lanes to be used by traffic moving in a particular direction regardless of the center of the roadway. Drivers of vehicles shall obey the directions of every such sign.

Sec. 15-502. Driving on right side of roadway required; exceptions.

A. Upon all roadways of sufficient width a vehicle shall be driven to the right of the center of the roadway, except as follows:

1. When overtaking and passing another vehicle proceeding in the same direction under the rules governing such movement;
2. When the right half of a roadway is closed to traffic while under construction or repair;
3. Upon a roadway divided into three (3) marked lanes for traffic under the rules applicable thereon; or
4. Upon a roadway designated and sign-posted for one-way traffic.

B. All vehicles shall keep to the right roadway on all streets or highways which are divided into two (2) roadways.

C. Upon all roadways, any vehicle proceeding at less than normal speed of traffic at the time and place and under the conditions then existing shall be driven in the right-hand lane then available for traffic, or as close as practicable to the right-hand curb or edge of the roadway, except when overtaking and passing another vehicle proceeding in the same direction or when preparing for a left turn at an intersection or into a private road or driveway.

Sec. 15-503. When overtaking on the right is permitted.

A. The driver of a vehicle may overtake and pass upon the right of another vehicle only under the following conditions:

1. When the vehicle overtaken is making or about to make a left turn;
2. Upon a street or highway with unobstructed pavement not occupied by parked vehicles of sufficient width for two (2) or more lines of moving vehicles in each direction; or
3. Upon a one-way street or upon any roadway on which traffic is restricted to one direction of movement, where the roadway is free from obstructions and of sufficient width for two (2) or more lines of moving vehicles.

B. The driver of a vehicle may overtake and pass another vehicle upon the right only under conditions permitting such movement in safety. In no event shall such movement be made by driving off the pavement or main-traveled portion of the roadway.

Sec. 15-504. Overtaking a vehicle on the left.

A. The driver of a vehicle overtaking another vehicle proceeding in the same direction shall pass to the left thereof at a safe distance and shall not again drive to the right side of the street or roadway until safely clear of the overtaken vehicle.

B. Except when overtaking and passing on the right is permitted, the driver of an overtaken vehicle shall give way to the right in favor of the overtaking vehicle on audible signal and shall not increase the speed of his vehicle until completely passed by the overtaking vehicle.

Sec. 15-505. Limitations on overtaking on the left; exception.

A. No vehicle shall be driven to the left side of the center of the street or roadway in overtaking and passing another vehicle proceeding in the same direction unless such left side is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit the completion of the overtaking and passing without interfering with the safe operation of any vehicle approaching from the opposite direction or any vehicle overtaken. In every instance the overtaking vehicle must return to the right-hand side of the roadway before coming within one hundred (100) feet of any vehicle approaching from the opposite direction.

B. No vehicle at any time shall be driven to the left side of the roadway under the following conditions:

1. When approaching the crest of a grade, or upon a curve in the street or highway where the driver's view along the street or highway is obstructed; or
2. When approaching within one hundred (100) feet of a bridge, viaduct or tunnel or when approaching within fifty (50) feet of or traversing any intersection or railroad grade crossing.

Sec. 15-506. Passing vehicles proceeding in opposite directions. Drivers of vehicles proceeding in opposite directions shall pass each other to the right. Upon roadways having a width for not more than one line of traffic in each direction each driver shall give to the other at least one-half ($1/2$) the main-traveled portion of the roadway as nearly as possible.

Sec. 15-507. One-way roadways and rotary traffic islands.

A. The Council, by motion or resolution, may designate any road, street, alley, or highway, or any separate roadway under their jurisdiction for one-way traffic and shall cause appropriate signs giving notice thereof, to be erected.

B. Whenever the City designates any street or alley or part thereof as a one-way street or alley, the City shall have placed and maintained signs giving notice thereof; and no such regulation shall be effective unless such signs are in place. Signs indicating the direction of lawful traffic movement shall be placed at every intersection where movement of traffic in the opposite direction is prohibited.

C. Upon those streets and parts of streets and in those alleys and parts of alleys so designated as one-way streets and alleys, vehicular traffic shall move only in the direction indicated when signs indicating the direction of traffic are erected and maintained at every intersection where movement in the opposite direction is prohibited.

D. Upon roadways designated and sign posted for one-way traffic a vehicle shall be driven only in the direction designated.

E. A vehicle passing around a rotary traffic island shall be driven only to the right of such island.

Sec. 15-508. Following too closely. The driver of a motor vehicle shall not follow another vehicle more closely than is reasonable and prudent, having due regard for the speed of such vehicles and the traffic upon and the condition of the highway.

Sec. 15-509. No passing zones.

A. The State Department of Transportation, as regards state and federal highways, and the City as regards all other streets, are hereby authorized to determine those portions of any highways where overtaking and passing to the left would be especially hazardous, and may, by appropriate signs or markings on the roadway, indicate the beginning and end of such zones. When such signs or markings are in place and clearly visible to an ordinarily observant person, every driver shall obey the directions thereof.

B. Where signs or markings are in place to define a no-passing zone as set forth in Subsection A of this section, no driver shall at any time drive to the left side of the roadway within then no-passing zone or on the left side of any pavement striping designed to mark the no-passing zone throughout its length.

Sec. 15-510. Driving through funeral or other procession prohibited; exceptions. No driver of a vehicle shall drive between the vehicles comprising a funeral or other authorized procession while they are in motion and when such vehicles are conspicuously designated as required in this Chapter. This provision shall not apply at intersections where traffic is controlled by traffic control signals or police officers.

B. Wherever a school zone is located on a multiple lane street which is divided into three (3) or more clearly marked lanes for traffic or where the right half of the roadway has been divided into two (2) or more lanes, or on one-way streets, vehicles shall be allowed to pass slower moving vehicles being driven in the same direction where passing does not involve a change of lane movement.

Sec. 15-514. Overtaking and passing school bus.

A. The driver of a vehicle meeting or overtaking a school bus that is stopped to take on or discharge school children, and on which the red loading signals are in operation, shall stop his vehicle before it reaches the school bus and not proceed until the loading signals are deactivated and then proceed past such school bus at a speed which is reasonable and with due caution for the safety of such school children and other occupants.

B. The driver of any vehicle when passing a school bus shall use due caution for the safety of school children and other occupants of the school bus.

C. Occupants of the school bus shall have the right of way when crossing the roadway immediately upon leaving the school bus.

Sec. 15-515. School bus requirements; lights; signs; painting.

3. Evidence that there was eight-hundredths of one percent ($\frac{8}{100}$ of 1%) or more by weight of alcohol in his blood shall be admitted as prima facie evidence that the person was under the influence of alcohol or intoxicating liquor;

The percent by weight of alcohol in the blood shall be based upon grams of alcohol per one hundred (100) milliliters of blood. - C.** When three (3) or more persons assemble to witness or participate in an unlawful speed contest such assembly is unlawful assembly and any person who participates in such unlawful assembly is guilty of an offense.

Sec. 15-529. Permits required for parades and processions. No funeral, procession, or parade containing two hundred (200) or more persons or fifty (50) or more vehicles except the military forces of the United States and the military forces of this state, shall occupy, march, or proceed along any street except in accordance with a permit issued by the chief of police and such other regulations as are set forth herein which may apply.

Sec. 15-530. Driving through safety zone. No vehicle shall at any time be driven through or within a safety zone or island.

Sec. 15-531. Stating parked vehicle. No person shall start a vehicle which is stopped, standing, or parked unless and until such movement can be made with reasonable safety.

Sec. 15-532. Opening and closing vehicle doors. No person shall open the door of a motor vehicle on the side available to moving traffic unless and until it is reasonably safe to do so; nor shall any person leave a door open on the side of a motor vehicle available to moving traffic for a period of time longer than necessary to load or unload passengers.

Sec. 15-533. Obstructions to driver's view or driving mechanism.

- A.** No person shall drive a vehicle when it is so loaded, or when there are in the front seat such a number of persons, exceeding three (3), as to obstruct the view of the driver to the front or sides of the vehicle or as to interfere with the driver's control over the driving mechanism of the vehicle.
- B.** No passenger in a vehicle shall ride in such position as to interfere with the driver's view ahead or to the sides or to interfere with his control over the driving mechanism of the vehicle.

Sec. 15-534. Boarding or alighting from vehicles. No person shall board or alight from any vehicle while such vehicle is in motion.

Sec. 15-535. Unlawful riding. No person shall ride on any such vehicle upon any portion thereof not designed or intended for the use of passengers. This provision shall not apply to an employee engaged in the necessary discharge of a duty, or to persons riding within truck bodies in space intended for merchandise.

Sec. 15-536. Service drives. It is unlawful for any person to operate any vehicle through a service drive situated at a street intersection within the city unless the operator of such vehicle transacts business on the premises where such service drive is located.

Sec. 15-537. Truck driving and route restrictions. The City, subject to such directions as the Council may give, may prescribe routes through the City for the use of trucks in general, trucks of particular kinds or other vehicles which are not ordinary private passenger vehicles, passing through the City. Appropriate and adequate signs shall be placed along such routes so that drivers of such vehicles may follow the routes. When such signs are so erected and in place, the driver of a truck or other vehicle for which a route has been prescribed, as provided above, while passing through the City, shall keep on such route and shall not deviate therefrom except in case of emergency. Drivers of such vehicles shall follow such routes so far as practicable also when driving within the City and not merely through the City.

Sec. 15-538. Loads on vehicles.

A. No vehicle shall be driven or moved on any highway unless the vehicle is so constructed or loaded as to prevent any of its load from dropping, shifting, leaking, blowing or otherwise escaping therefrom, except that sand may be dropped for the purpose of securing traction, or water or other substances may be sprinkled on a roadway in cleaning or maintaining the roadway.

B. No person shall operate on any highway any vehicle with any load unless the load and any covering thereon is securely fastened so as to prevent the covering or load from becoming loose, detached or in any manner a hazard to other users of the highway. Any vehicle loaded with sand, cinders, or other loose material susceptible to blowing or escaping by reason of wind shall have the load covered or dampened so as to prevent the blowing or escaping of the load from the vehicle.

C. This section shall apply to trucks loaded with livestock, poultry or agricultural products only except baled agricultural products, provided that any such truck shall be so constructed or loaded as to prevent such livestock or poultry from escaping therefrom.

Sec. 15-539. Vehicle approaching or entering intersection.

A. When two (2) vehicles enter or approach an uncontrolled intersection from different highways at approximately the same time, the driver of the vehicle on the left shall yield the right-of-way to the vehicle on the right as otherwise stated in this chapter; however, the driver of vehicle on a street which is not a state or federal highway approaching an intersection with a state or federal highway shall stop and yield the right-of-way to a vehicle which has entered the intersection or which is so close thereto as to constitute an immediate hazard.

B. The right-of-way rule declared in the preceding subsection is modified as to through highways as otherwise stated in this Chapter.

Sec. 15-540. Vehicle turning left at intersection. The driver of a vehicle within an intersection intending to turn to the left shall yield the right-of-way to any vehicle approaching from the opposite direction which is within the intersection or so close thereto as to constitute an immediate hazard. After so yielding and having given signal when and as required by this code, the driver may make the left turn and the drivers of all other vehicles approaching the intersection from the opposite direction shall yield the right-of-way to the vehicle making the left turn.

Sec. 15-541. Vehicle approaching a “Yield Right-of-Way” sign. The driver of a vehicle approaching a “Yield Right-of-Way” sign shall slow to a reasonable speed for existing conditions of traffic and visibility, yielding the right-of-way to all vehicles on the intersecting street or highway which have entered the intersection or which are so close as to constitute an immediate hazard.

Sec. 15-542. Vehicle entering through highway. Except when directed to proceed by a police officer or a traffic control signal, every driver of a vehicle shall stop as required by this code at the entrance to a through highway and shall yield the right-of-way to other vehicles which have entered the intersection from the through highway, or which are approaching so closely on the through highway as to constitute an immediate hazard.

Sec. 15-543. Vehicles facing stop, slow, warning or caution signal. If two (2) or more vehicles face stop, slow, warning or caution signs or signals at an intersection and are approaching as to enter the intersection at the same time, the following rules shall apply: If each vehicle is required to stop, the vehicle coming from the right shall have the right-of-way. If each vehicle is required to slow, the vehicle coming from the right shall have the right-of-way. If each vehicle is required to take caution, the vehicle coming from the right shall have the right-of-way. If one vehicle is required to slow and the other to take caution, the one required to take caution shall have the right-of-way. In any event, a vehicle which has already entered the intersection shall have the right-of-way over one which has not entered the intersection.

Sec. 15-544. Through streets.

A. The City, subject to such direction as the council may give, may designate any street or part of a street a through street.

B. Whenever the City designates and describes a through street, the stop sign, or yield sign if deemed more appropriate, shall be placed and maintained on every street intersecting a through street, or intersecting that portion thereof, unless traffic at such intersection is controlled at all times by traffic control signals.

C. At the intersection of two (2) such through streets or at the intersection of a through street and a heavy traffic street not so designated, stop signs shall be erected at the approaches of either of the streets as may be determined by the City.

Sec. 15-545. Intersections where stop or yield required. The Council, by motion or resolution, is hereby authorized to determine and designate intersections upon other than through streets where particular hazards exist and to determine whether:

1. Vehicles shall stop at one or more entrances to any such stop intersection, in which event he shall cause to be erected a stop sign at every such place a stop is required; or
2. Vehicles shall yield the right-of-way to vehicles on a different street as provided in this part in which event he shall cause to be erected a yield sign at every place where yield is required.

Sec. 15-546. Stop or yield sign construction and placement. Every stop or yield sign erected pursuant to this chapter shall bear the word "Stop" or "Yield" in letters not less than eight (8) inches in height for a stop sign and not less than seven (7) inches in height for a yield sign. Every stop or yield sign shall at night be rendered luminous by steady or flashing internal illumination, by a fixed floodlight projected on the face of the sign, or by efficient reflecting elements on the face of the sign. Every stop or yield sign shall be located as close as practicable to the nearest line of the crosswalk on the near side of the intersection or if there is not crosswalk, then the sign shall be located at the nearest line of the intersecting roadway.

Sec. 15-547. Vehicle entering stop intersection. Except when directed by a police officer or traffic control signal, every driver of a vehicle approaching a stop intersection, indicated by a stop sign, shall stop before entering the crosswalk on the near side of the intersection. In the event there is no crosswalk, the driver shall stop at a clearly marked stop line before entering the intersection. If there is no marked stop line, then the driver shall stop at the point nearest the intersecting road where the driver has a view of approaching traffic on an intersecting roadway before entering the intersection. A driver after having stopped shall yield the right-of-way to any vehicle which has entered the intersection from another highway or road, or which is approaching so close as to constitute immediate hazard; but the driver having so yielded may then proceed and the driver of all other vehicles approaching the intersection shall yield the right-of-way to the vehicle so proceeding.

Sec. 15-548. Vehicle entering yield intersection. The driver of a vehicle approaching a yield sign shall, in observance to such sign, slow down to a speed reasonable for the existing condition or shall stop if necessary and shall yield the right-of-way to any pedestrian legally crossing the roadway on which he is driving and to any vehicle in the intersection or approaching on another road so closely as to constitute an immediate hazard. The driver having so yielded may then proceed and drivers of all other vehicles approaching the intersection shall yield to the vehicle so proceeding. A driver who enters a yield intersection without stopping and has or causes a collision with a pedestrian at a crosswalk or a vehicle in the intersection shall *prima facie* be considered not to have yielded as required herein. The provisions of this section shall not release the drivers of other vehicles approaching the intersection at such a distance as not to constitute immediate hazard from the duty to drive with due care to avoid a collision. The driver of a vehicle approaching a yield sign, if required for safety to stop, shall stop before entering the crosswalk on the near side of the intersection before entering the intersection; if there is no crosswalk, the driver shall stop at a clearly marked stop line, or if there is no stop line, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway.

Sec. 15-549. Vehicle entering highway from private road or driveway. The driver of a vehicle about to enter, leave or cross a highway from or into a private road or driveway shall yield the right-of-way to all vehicles approaching on the highway.

Sec. 15-550. Vehicles entering traffic from parking. Any vehicle attempting to re-enter traffic while parked at the curb shall yield the right-of-way to oncoming traffic in the street approaching from the rear. The parked vehicle shall proceed into the line of traffic only after the driver has given the appropriate signal which indicates his intention of turning from the curb and into the line of traffic. The vehicle shall in no event enter the line of traffic until the driver has ascertained that no hazard exists.

Sec. 15-551. Emerging from the alley, driveway, or building. The driver of a vehicle emerging from an alley, driveway, or building shall stop such vehicle immediately prior to driving onto a sidewalk or onto the sidewalk area extending across any alley way or driveway, and shall yield the right-of-way to any pedestrian as may be necessary to avoid collision, and upon entering the roadway shall yield the right-of-way to all vehicles approaching on the roadway.

Sec. 15-552. Stop when traffic obstructed. No driver shall enter an intersection or a marked cross walk unless there is sufficient space on the other side of the intersection or cross walk to accommodate the vehicle he is operating without obstructing the passage of other vehicles or pedestrians, notwithstanding any traffic control signal indication to proceed.

Sec. 15-553. Obedience to signal indicating approach of train.

A. Whenever any person driving a vehicle approaches a railroad grade crossing under any circumstances stated in this section, the driver of such vehicle shall stop within fifty (50) feet but not less than fifteen (15) feet from the nearest rail of such railroad, and shall not proceed until he can do so safely. The foregoing requirements shall apply when:

1. A clearly visible electric or mechanical signal device gives warning of the immediate approach of a railroad train;
2. A crossing gate is lowered or when a human flagman gives or continues to give signal of the approach or passage of a railroad train;
3. A railroad train approaching within approximately one thousand five hundred (1,500) feet of the highway crossing emits a signal audible from such distance and such railroad train, by reason of its speed or nearness to such crossing, in an immediate hazard; or
4. An approaching railroad train is plainly visible and is in hazardous proximity to such crossing.

B. No person shall drive any vehicle through, around or under any crossing gate or barrier at a railroad crossing while such gate or barrier is closed or is being opened or closed.

Sec. 15-554. Certain vehicles to stop at all railroad grade crossings.

A. The driver of any motor vehicle carrying passengers for hire, or of any school bus carrying any school child, or of any vehicle carrying explosive substances or flammable liquids as a cargo or part of a cargo, before crossing at grade any track or tracks of a railroad, shall stop such vehicle within fifty (50) feet but not less than fifteen (15) feet from the nearest rail of such railroad, and while so stopped, shall listen and look in both directions along such track for any approaching train and for signals indicating the approach of a train, except as hereinafter provided, and shall not proceed until he can do so safely. After stopping as required herein and upon proceeding when it is safe to do so, the driver of any such vehicle shall cross only in such gear of the vehicle that there will be no necessity for changing gears while traversing such crossing, and driver shall not shift gears while crossing the track or tracks.

B. No stop need be made at any such crossing where a police officer or traffic control signal directs traffic to proceed.

Sec. 15-555. Seat belts and child passenger restraints required.

A. Every operator and front seat passenger of a passenger car operated in this city shall wear a properly adjusted and fastened safety belt system, required to be installed in the motor vehicle when manufactured pursuant to Federal Motor Vehicle Safety Standard 208. For the purposes of this section, "passenger car" shall mean "automobile" as defined in Section 22.1 of Title 47 of the Oklahoma Statutes, except that "passenger car" shall not include trucks, truck-tractors, recreational

vehicles, motorcycles, motorized bicycles or vehicles used primarily for farm use and licensed pursuant to state law, Section 1134 of Title 47 of the Oklahoma Statutes.

B. The preceding subsection shall not apply to an operator or passenger of a passenger car in which the operator or passenger possesses a written verification from a physician licensed in this state that he is unable to wear a safety belt system for medical reasons. The issuance of such verification by a physician, in good faith, shall not give rise to, nor shall such physician thereby incur, any liability whatsoever in damages or otherwise, to any person injured by reason of such failure to wear a safety seat belt system. The preceding subsection shall not apply to an operator of a motor vehicle who is a route carrier of the U.S. Postal Service.

C. Every driver when transporting a child under four (4) years of age in a motor vehicle operated on the roadways, streets, or highways of this city shall provide for the protection of the child by properly using a child passenger restraint system or a properly secured seat belt in the rear seat of the motor vehicle. For purposes of this subsection, "child passenger restraint system" means an infant or child passenger restraint system that meets the federal standards for crash-tested restraint systems as set by the United States Department of Transportation. Children four (4) or five (5) years of age shall be protected by the use of a child passenger restraint system or a seat belt. The provisions of this subsection shall not apply to:

1. A nonresident driver transporting a child in this state;
2. The driver of a school bus, taxicab, moped, motorcycle, or other motor vehicle not required to be equipped with safety belts pursuant to state or federal laws;
3. The driver of an ambulance or emergency vehicle;
4. A driver of a vehicle if all of the seat belts in the vehicle are in use; and
5. The transportation of children who for medical reasons are unable to be placed in such devices.

A law enforcement officer is hereby authorized to stop a vehicle if it appears that the driver of the vehicle has violated the provision of this section and to give an oral warning to the driver. The warning shall advise the driver of the possible danger to children resulting from the failure to install or use a child passenger restraint system or seat belts in the motor vehicle. A person who violates the provision of this subsection shall not be subject to any criminal penalty. A violation of the provisions of this subsection shall not be admissible as evidence in any civil action or proceeding for damages. In any action brought by or on behalf of an infant for personal injuries or wrongful death sustained in a motor vehicle collision, the failure of any person to have the infant properly restrained in accordance with the provisions of this subsection shall not be used in aggravation or mitigation of damages.

D. No law enforcement officer shall make routine stops of motorists for the purpose of enforcing subsection A of this section. Any person convicted of violating subsection A of this section shall be punished by a maximum fine of Ten Dollars (\$10.00) and court costs.

Sec. 15-601. Authority to install traffic control devices. The Council, by motion or resolution, shall have placed and maintained traffic control signs, signals, and devices when and as required under the traffic ordinances of this City to make effective the provisions of such ordinances, and may have placed and maintained such additional traffic control signs, signals, and devices as they may deem necessary to regulate traffic under the traffic ordinances of this City or under state law or to guide or warn traffic.

Sec. 15-602. Traffic control devices; uniform requirements.

A. All traffic control signs, signals, and devices shall conform to the Manual of Uniform Traffic Control Devices approved by the State Department of Public Safety.

B. All signs, signals, and devices required hereunder for a particular purpose shall so far as practicable be uniform as to type and relative location throughout the City. All traffic control devices erected and not inconsistent with the provisions of state law or this Chapter shall be official traffic control devices.

Sec. 15-603. Obedience to official traffic control devices. The driver of any vehicle shall obey the instructions of any official traffic control device applicable thereto, placed in accordance with the provisions of this chapter, unless otherwise directed by a traffic or police officer, subject to the exemptions granted the driver of an authorized emergency vehicle in this part.

Sec. 15-604. When official traffic control devices required for enforcement purposes. No provision of this chapter for which official traffic control devices are required shall be enforced against an alleged violator if at the time and place of the alleged violation an official device is not in proper position and sufficiently legible to be seen by an ordinarily observant person. If a particular section does not state that official traffic control devices are required, such section shall be effective even though no devices are erected or in place.

Sec. 15-605. Traffic control signal legend. The display of signal lights, arrows and words shall be deemed to have the following meanings and requires the appropriate response on the part of vehicular traffic and pedestrians:

1. Green alone, “go”:
 - a.** Vehicular traffic facing the signal, except when prohibited, may proceed straight through or turn right or left unless an official sign at such place prohibits such turn, but any vehicle and any pedestrian lawfully within the intersection or adjacent crosswalk at the time the signal displays green shall have the right-of-way over such vehicular traffic; and
 - b.** Pedestrian traffic, facing a green signal may proceed across the roadway within any marked or unmarked crosswalk unless a “walk” signal indicator is operating;
2. Steady yellow or amber alone, “caution”:
 - a.** The showing of such signal color following green shall constitute a warning that the “red” or “stop” signal will be exhibited immediately thereafter; and
 - b.** Vehicles facing the signal shall stop before entering the near side crosswalk or at the limit line, if it is marked, unless the vehicle is so near the limit line when the “caution” signal first flashes that a stop cannot be made in safety, in which event vehicles may proceed cautiously through the intersection and clear the same before the “red” signal flashes;

3. Red alone, “stop”:

- a.** Vehicular traffic facing the signal shall stop before entering the crosswalk and shall remain standing until green or “go” is shown alone. Except where official signs are erected prohibiting such turns, vehicles in the right traffic lane, after making a full stop as required, may enter the intersection cautiously and make a right turn, but such vehicles shall yield the right-of-way to any pedestrians or other traffic in the intersection and the turn shall be made so as not to interfere in any way with traffic proceeding on a green signal indication on the cross street; and
- b.** Pedestrians facing the signal shall not enter or cross the roadway when such movement interferes with traffic proceeding on a green signal indication on the cross street, or when the movement cannot be made in safety. No pedestrian facing such signal shall enter the roadway until the green or “go” is shown alone unless authorized to do so, by a pedestrian “walk” signal;

4. Steady red with green arrow:

- a.** Vehicular traffic facing such signal when in the proper traffic lane may cautiously enter the intersection only to make the movement indicated by the arrow, but shall yield the right-of-way to pedestrians lawfully within a crosswalk and to other traffic lawfully using the intersection. If the movement indicated by the green arrow is a left turn, the left turn shall be made only on the red with green arrow signal; and
- b.** No pedestrian facing such signal shall enter the roadway until the green or “go” is shown alone unless authorized to do so by a pedestrian “walk” signal; and

5. Green arrows alone. Whenever vehicular traffic movements are controlled by green arrows alone and not displayed with any other signal indication, vehicles facing such signals may make the movements indicated by the green arrows and the movements shall be made only when the green arrows are displayed.

Sec. 15-606. Pedestrians; signal indicators; regulations. Special pedestrian control signals exhibiting the words “walk,” “wait” or “don’t walk” shall regulate pedestrian movement as follows:

- 1. “Walk.”** Pedestrians facing such signal may proceed across the roadway in the direction of the signal and shall be given the right-of-way by the drivers of all vehicles; and
- 2. “Wait” or “Don’t Walk”.** No pedestrian shall start to cross the roadway in the direction of such signal, but any pedestrian who has partially complete his crossing on the “walk” signal shall proceed to a sidewalk or safety zone while the “wait” signal is showing.

Sec. 15-607. Flashing signals.

A. Whenever a flashing red or yellow signal is illuminated, it shall require obedience by vehicular traffic as follows:

- 1. “Flashing Red.”** When a red light is illuminated with rapid intermittent flashes, drivers of vehicles shall stop before entering the nearest crosswalk at an intersection and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign; and
- 2. “Flashing Yellow.”** When a yellow light is illuminated with rapid intermittent flashes, drivers of vehicles may proceed through the intersection, or pass such signal only with caution.

B. This section shall not apply at railroad grade crossings.

Sec. 15-608. Pedestrian-activated school crossing signals. Whenever a pedestrian-activated school crossing signal is provided, it requires obedience by vehicular traffic and pedestrians as follows:

1. “Flashing yellow”:

- a.** When a yellow lens is illuminated with rapid intermittent flashes, drivers or operators of vehicles may proceed through the intersection or pass such signal only with caution; and
- b.** Pedestrians shall not proceed in conflict with traffic, but may activate the signal control switch, and shall wait until steady red alone is shown before entering the roadway or intersection controlled by the signal;

2. “Steady yellow alone”:

a. Vehicular traffic facing the signal is thereby warned that the red of “stop” signal will be exhibited immediately thereafter, and such vehicular traffic shall not enter or be crossing the intersection or pass the signal when the red or “stop” signal is exhibited; and

b. No pedestrian shall enter the roadway or intersection on which the signal controls vehicular traffic until steady red alone is shown;

3. “Steady red”:

a. a. Vehicular traffic facing the signal shall stop before entering the crosswalk on the near side of the intersection, and shall remain standing until flashing yellow is shown alone;

b. Pedestrians may proceed across the road controlled by the signal, and shall be given the right-of-way by the drivers of all vehicles; and

4. “Steady red and steady yellow combined”:

a. Vehicular traffic facing the signal is thereby warned that the flashing yellow signal will be exhibited immediately thereafter, and that such vehicular traffic shall remain standing until the flashing yellow is shown alone; and

b. Pedestrians are thereby warned that the flashing yellow signal is about to be shown, and shall not enter the signal-controlled roadway or intersection, or in a direction which conflicts with the movement of vehicular traffic; but any pedestrian who has partially complete his crossing shall proceed to the nearest sidewalk or safety island, and shall be given the right-of-way by the drivers of all vehicles.

Sec. 15-609. Unauthorized traffic control devices.

A. No person shall place, maintain, or display upon or in view of any highway any unauthorized sign, signal, marking, or device which purports to be or is an imitation of or resembles an official traffic control device or railroad sign or signal, or which attempts to direct the movement of traffic, or which hides from view or interferes with the effectiveness of any official traffic control device or any railroad sign or signal.

B. No person shall place or maintain nor shall any public authority permit upon any highway any traffic sign, signal, or device bearing thereon any commercial advertising.

C. This section shall not prohibit the erection upon private property adjacent to highways of signs giving useful directional information which are of the type that cannot be mistaken for official signs.

D. Every prohibited sign, signal, marking or device may be removed without notice.

Sec. 15-610. Defacement of traffic control devices.

A. No person shall without lawful authority attempt to or in fact alter, destroy, deface, molest, interfere, tamper, injure, knock down, remove or have in his possession any traffic control device or any railroad sign or signal or an inscription, shield or insignia thereon, or any part thereof.

B. This Chapter shall not apply to any of the following persons when acting within the scope and duty of their employment:

1. Any officer, agent, independent contractor, employee, servant or trustee of any governmental agency; or

2. Any officer, agent independent contractor, employee, servant or trustee of any contractor, public utility or railroad company.

Sec. 15-611. Play streets, authority to establish. The Council shall have authority to declare any street or part thereof a play street and to have place appropriate signs or devices in the roadway indicating and helping to protect the same.

Sec. 15-612. Play streets, restriction of use. Whenever authorized signs are erected indicating any street or part thereof as a play street, no person shall drive a vehicle upon any such street or portion thereof except drivers of vehicles having business or whose residences are within such closed area; and then any such driver shall exercise the greatest care in driving upon any street or portion thereof.

Sec. 15-613. Designation of crosswalks and safety zones. The City Superintendent, subject to any directions given by the Council, may:

1. Designate and maintain, by appropriate devices, marks or lines upon the surface of the roadway, crosswalks at intersections where in his opinion there is particular danger to pedestrians crossing the roadway, and at such other places as he may deem necessary; and
2. Establish safety zones or islands of such kind and character and at such places as he may deem necessary for the protection of pedestrians.

Sec. 15-614. Traffic lanes.

A. The City Superintendent, subject to any directions given by the Council, is authorized to have traffic lanes marked upon the roadway of any street where a regular alignment of traffic is necessary.

B. Where such traffic lanes have been marked, it is unlawful for the operator of any vehicle to fail or refuse to keep such vehicle within the boundaries of any such lane except when lawfully passing another vehicle or preparatory to making a lawful turning movement or otherwise authorized by ordinance.

Sec. 15-615. Corner cutting prohibited to avoid devices. No driver shall drive through a service station driveway or other driveway or private property so as to avoid the use of a street or traffic control device.

STORMWATER MANAGEMENT PROGRAM

| | | |
|--------------|--|-------|
| Sec. 17-201. | Findings of fact. | 17.2 |
| Sec. 17-202. | Purpose. | 17.3 |
| Sec. 17-203. | Definitions. | 17.4 |

| Sec. 17-206. | Master drainage plans. | 17.10 |
| Sec. 17-207. | Stormwater management program audit. | 17.11 |

Sec. 17-201. Findings of fact. The City of Wagoner makes the following findings of fact:

1. Because of its physical terrain and geographical location, the City is particularly subject to damage from stormwater runoff, which, from time to time, overflows from existing watercourses and drainage facilities;
2. Floodplain areas of the City are subject to periodic inundation which may result in the loss of life and property, health and safety hazards, disruption of commerce and governmental services, and extraordinary public expenditures for flood protection and relief, all of which adversely affect the public health, safety and general welfare;
3. The flood losses are created by the cumulative effect of obstructions in floodplains and increase of impervious areas which cause an increase in stormwater runoff resulting in an increase in flood heights and velocities, and by the occupancy of floodplain areas by uses vulnerable to floods and hazardous to other lands because they are inadequately elevated, flood-proofed, or otherwise protected from flood damage;
4. Regulations addressing drainage requirements for new land development must be replaced by a comprehensive approach in order to prevent or minimize damage to property and to reduce the potential for loss of life;
5. A comprehensive approach to managing stormwater runoff and floodplain management is required to address existing and future needs;
6. The presently existing stormwater drainage facilities of the City require continuous operation, maintenance, renewal and replacement;

7. While the City does not own all drainage facilities or floodplain lands within its jurisdiction, it does own or control portions of the stormwater conveyance systems in each of the major drainage basins so as to make a unified approach to flood issues a desirable and administratively achievable goal;

8. The stormwater management program should be funded in the manner of a public utility.

(Renumbered from Sec. 5-1101 by Ordinance No. 958 6/6/2022)

Sec. 17-202. Purpose. It is the purpose of this chapter to improve the promotion of public health, safety and welfare by providing for, acquiring, constructing, operating, equipping, and maintaining within the City, the stormwater management program and to provide a source of funding for the system. Management of the stormwater management program is intended to:

1. Protect human life, health, and property;
2. Minimize public and private storm and flood losses from stormwater runoff in the City;
3. Minimize expenditure of public money for costly flood control projects;
4. Minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public;
5. Assure that the movement of emergency vehicles is not prohibited nor inhibited during storm or flood events;
6. Minimize prolonged business interruptions;
7. Minimize damage to public facilities and utilities such as water and gas mains, electric, telephone and sewer lines, streets and bridges located in floodplains;
8. Support a stable tax base by providing for the sound use and development of flood-prone areas in such a manner as to minimize future flood blight areas;
9. Ensure that information is available to potential buyers and developers that property may be located in a flood area;

2. Appeal. A request for a review of the City of Wagoner's interpretation of any provision of Sec. 17-205.2 or Sec. 17-265 of this chapter, or a request for a variance.
3. Area of special flood hazard. The base flood area identified by the Federal Emergency Management Agency (FEMA) in the numerous flood insurance studies, including the Flood Insurance Rate Maps (FIRM). These maps were based on lands having a one percent chance of being flooded in any given year as identified by FEMA.
4. Backwater curve. A rise in water surface elevation as a stream moves from a less constricted area to either a ponding area or more constricted area.
5. Base flood area. The areas of flood hazard identified by the Federal Emergency Management Agency (FEMA) in the numerous flood insurance studies, including the Flood Insurance Rate Maps (FIRM). These maps were based on lands having a one (1%) percent chance of being flooded in any given year as identified by FEMA.
6. Base flood elevation (BFE). The elevation for which there is a one percent chance in any given year that flood levels will equal or exceed it. The BFE is determined by statistical analysis for each local area and designated on the Flood Insurance Rate Maps. It is also known as the FEMA one percent chance (100-year) flood elevation. The BFE is used to determine the base flood area.
7. Bridge. A structure consisting of abutments, load bearing beams and/or deck, whose main function is to carry vehicular or pedestrian traffic across a depression.

- 14. Detention facility.** A type of flood control system which delays the downstream progress of floodwaters in a controlled manner, generally through the combined use of a temporary stormwater storage area and a metered outlet device that causes a lengthening of the duration of flow, and thereby reduces downstream flood peaks. Stormwater detention facilities are either on-site which serve individual developments or subdivisions; or regional, which serve existing and future developments within a specified topographic region.

Those physical structure works, for which funds have been authorized, appropriated and expended and which have been constructed specifically to modify flooding in order to reduce the extent of the areas within a community subject to a "special flood hazard" and the extent of the depths of associated flooding. Such a system typically includes dams, reservoirs, channels, storm sewers, levees or dikes. These specialized flood-modifying works are those constructed in conformance with sound engineering standards.

39. Floodway. The channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than a designated height (one foot or less by current FEMA requirements). - 41. Freeboard.** Freeboard is a factor of safety usually expressed in feet above a flood level for purposes of floodplain management. “Freeboard” tends to compensate for the many unknown factor that could contribute to flood heights greater than the height calculated for a selected size flood and floodway conditions, such as wave action, bridge openings, and the hydrological effect of urbanization of the watershed.
- 42. Functionally dependent use.** A use, which cannot perform its intended purpose unless it is located or carried out in close proximity to water. The term includes docking facilities, port facilities that are necessary for the loading and unloading of cargo or passengers, and ship building and ship repair facilities, but does not include long-term storage or related manufacturing facilities.

- 50. Manufactured or Mobile home.** A structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. For floodplain management purposes, the term “manufactured home” also includes park trailers, travel trailers, and other similar vehicles placed on a site for greater than 180 consecutive days. Manufactured or Mobile home park or manufactured home subdivision (existing).** A parcel (or contiguous parcels) of land divided into two or more mobile home lots for rent or sale which the construction of facilities for servicing the lot on which the manufactured home is to be affixed (including, at a minimum, the installation of utilities, either final site grading or the pouring of concrete pads, and the construction of streets) is completed before the effective date of this chapter.
- 52. Manufactured or Mobile home park or manufactured home subdivision.** A parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale for which the construction of facilities for servicing the lot on which the manufactured home is to be affixed (including, at a minimum, the installation of utilities, either final or site grading or the pouring of

concrete pads, and the construction of streets) is completed on or after the effective date of this chapter.

53. Master Drainage Plan. An officially adopted plan which, by engineering design and study, describes storm drainage system improvements which will most adequately, feasibly and economically control stormwater runoff to minimize or eliminate future danger to people and property because of floodwaters.

54. Mean Sea Level. The average height of the sea for all stages of the tide. For the purposes of floodplain management, the National Geodetic Vertical Datum (NGVD) of 1988 or other datum, to which base flood elevations are referenced.

55. Minimum structure (commercial or residential) flood elevation. An elevation of a basement floor or lowest floor which is twelve (12) inches above the maximum high water elevation of the regulatory flood. If such a floor is placed on top of or above a pad in accordance with the applicable building codes, that pad must be at the regulatory flood protection elevation.

56. Mobile home. See the definition for manufactured home.

57. Natural conditions. The cover and topography of the land before any human-made changes; in areas where there have already been human-made changes before the effective date of this chapter, natural conditions shall mean the state of cover and topography of the land existing upon the effective date of this chapter. Requiring land to be maintained as "natural condition" does not forbid the removal of debris or the cutting and removal of dead or diseased trees or similar vegetation.

58. New construction. For floodplain management purposes, structures for which the "start of construction" commenced on or after the effective date of this chapter, provided that construction began in violation of previous floodplain management ordinances may be treated as it newly began under the ordinance to the extent of the prior violation.

61. Overland flow. That portion of stormwater flow which is conveyed as a shallow sheet flow across land rather than concentrated in a channel or storm sewer system.

62. Reach. A hydraulic engineering term used to describe longitudinal segments of a channel or river.

63. Regulatory flood. A flood that is reasonably characteristic of what can be expected to occur on a particular stream as a result of urbanization. The regulatory flood has a one (1%) percent chance of occurring in any one year, as determined from analysis of expected rainfalls in the general region. Runoff and water surface elevations for the regulatory flood shall be based on ultimate urbanization upstream.

64. Residential property. Any property designed and used principally for residential single-family or duplex purposes and developed according to and meeting the bulk and area requirements for residential single-family or duplex zoned property as set forth in the Wagoner County Metropolitan Area Zoning Ordinance at the time of development of such property.

65. Retention facility. A type of flood control system (typically a reservoir) that stops the downstream progress of floodwaters by employing methods of total containment. A Retention facility shall have the capability of storing the stormwater runoff from a 1% 24-hour storm event.

66. Runoff. That portion of precipitation that is not intercepted by vegetation, absorbed by the land surface, or evaporated, and thus flows overland into the stormwater drainage system.

67. Start of construction. Includes substantial improvement and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, replacement or other improvement was within 180 days of the permit date. The actual start means either the 1) first placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or 2) the placement of a manufactured home on a foundation. Permanent construction does not include a) land preparation, such as clearing, grading and filling; nor b) excavation for basement, footings, piers or foundations or the erection of temporary forms; nor c) the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure.

68. Stormwater drainage system. Any facility, structure, improvement, development, equipment, property or interest therein, including structural and nonstructural elements, which are made, constructed, used or acquired for the purpose of collecting, containing, storing, conveying and controlling stormwater wherever; this is located including, but not limited to, storm sewers, conduits, natural and human-made channels, roadways, pipes, culverts, detention facilities and floodplains whether publicly or privately owned.

69. Stormwater drainage system service charge. The fee levied within the City of Wagoner for the use of any portion of the City's stormwater drainage system.

70. Stream. A body of water flowing in a surface channel. Flow may be continuous or only during wet periods. Streams that flow only during wet periods are termed "intermittent streams."

72. Substantial improvement. Any repair, reconstruction or improvement of a structure, the cost of which equals or exceeds 50 percent of the fair market value of the structure either:

a. Any project for improvement of a structure to comply with existing state or local health, sanitary or safety code specifications, which are solely necessary to assure safe living conditions; or

b. Any alteration of a structure listed on the National Register of Historic Places or a state inventory of historic places provided that the alteration will not preclude the structure's continued designation as a "historic structure".

77. Violation. The failure of a structure or other development to be fully compliant with the community's floodplain management regulations. A structure or other development without the elevation certificate, other certifications, or other evidence of compliance required in 44 CFR Chapter 1, Parts 59 and 60.1 through 60.13 of the National Flood Insurance Program Regulations and this chapter is presumed to be in violation until such time as that documentation is provided.

78. Watercourse. A natural or human-made channel that gives direction to stormwater runoff.

79. Water surface elevation. The height, in relation to the National Geodetic Vertical Datum (NGVD) of 1988 (or other datum, where specified), of floods of various magnitudes and frequencies in the floodplains of riverine areas.

Sec. 17-231. Stormwater drainage system.

A. All stormwater runoff shall be subject to review and approval by the City with regard to analysis, design and construction of drainage facilities. The appropriate public authority shall have the right to maintain, or cause to be maintained, the drainage system for its intended purposes. If a basin master drainage plan is adopted for the area under consideration, then the provisions of the plan shall be adhered to unless amended.

B. The stormwater drainage system, both public and private, may consist of (1) roadways, storm sewers, stormwater detention facilities, stormwater retention facilities, improved channels; (2) unimproved drainage ways left in their natural condition; (3) the areas covered by drainage way easements for the purpose of providing overland flow; and (4) all appurtenances to the above including inlets, manholes, junction boxes, headwalls, dissipaters, culverts, etc. All portions of the drainage system that exist on or in dedicated street rights-of-way or property owned by the City in fee shall be owned and maintained by the City, unless provided otherwise by agreement or covenant. Improved and natural channels on private property shall be maintained by the property owners. In this context, the removal of dead or dying trees or storm debris shall not be considered to alter the channel so as to make it no longer a natural channel.

C. Every development shall be provided with a stormwater drainage system designed by a professional engineer registered in the State of Oklahoma, adequate to serve the development, and otherwise shall meet the approval requirements of the officials having jurisdiction.

D. The stormwater drainage system shall be designed so that property owners located downstream from and upstream from the development shall not be injuriously affected by the construction, operation, or maintenance of such system.

E. The stormwater drainage system plans prepared and sealed by a registered professional engineer shall show both plan and profile views of the proposed improvements. Any manhole or access point to the system that is buried out of sight shall be dimensioned to permanent objects in the vicinity.

F. The stormwater drainage system shall be designed to receive and pass the runoff from a one percent chance (100-Yr) storm. In areas covered by the regulatory flood area, that data shall govern. In areas not covered by the regulatory flood area, the design engineer shall prepare and submit a study for the area. The one percent (100-Yr) regulatory flow shall be confined within the said stormwater drainage system.

G. A minimum of the 20 percent (5-Yr) chance and one percent (100-Yr) chance storms shall be evaluated when designing the stormwater drainage systems. The Stormwater Manager may require additional evaluations including, but not limited to, the 1-Yr, 2-Yr, 10-Yr, 25-Yr, 50-Yr and 500-Yr storm frequency events.

(Renumbered from Sec. 5-1131 by Ordinance No. 958 6/6/2022)

Sec. 17-232. Stormwater collection system.

A. The stormwater collection system shall be designed either:

1. To pass a minimum of the runoff from a 20 percent chance (5-Yr) storm in a pipe network together with an overland flow path with capacities so that the combination of the two will pass the runoff from a one percent chance (100-Yr) storm under ultimate urbanized conditions.
2. Or, to pass the entire runoff from a one percent chance (100-Yr) storm in the pipe network. Should the entire runoff from a one percent chance storm be conveyed in an enclosed drainage network, grading shall be designed to convey the runoff from the one percent chance storm overland in the event of inlet or storm sewer blockage or bypass.
3. In either case, an overland drainage easement shall be required for overland flows. No overland flows shall be allowed to adversely affect any residential or non-residential structures.
4. In areas where overland flows may cause problems, the local administrator may require that the entire runoff from the one percent chance storm shall be conveyed through an enclosed drainage network.
5. In areas where ultimate urbanized flows are not planned for conveyance to a regional detention facility, the local administrator may reduce the capacity requirement to the 1% (100-Yr) condition flows.

B. The overland flow portion of the collection system shall be confined to dedicated rights-of-way, or drainage easements to assure the stormwater can pass through the development without inundating the lowest level of any building, dwelling, or structure. All drainage easements shall be shown on the plat.

C. The distance between inlets, as well as the distance to the first inlet on a street shall be determined by the lesser of the following:

1. For the one percent chance storm, water depth shall not exceed the top of curb, or
2. Six hundred feet.

D. At sump locations, the water depth shall not exceed six inches above the top of curb, or 12 inches above the top of grate, whichever is less, for the one percent chance storm. Where sump collection systems are used, an overflow route shall be provided in the event of a complete blockage of the inlet of pipe. If the inlets and pipe are sized for the one percent chance storm, a sod overflow can be used. If a 20 percent chance storm inlet and pipe system is designed, the overflow area shall be concrete lined. When a sod overflow structure is constructed, it shall be lined with Bermuda grass or approved equal and shall contain energy dissipaters, if required at the outflow point.

E. Driveway approaches shall be designed and constructed so that the runoff from the one percent chance storm shall not leave the roadway except in locations where the driveway is designed as part of the drainage system.

F. Runoff from areas greater than one-half acre outside the roadway of arterial and collector streets shall be collected before it reaches the roadway. In no circumstance shall concentrated flows be allowed to discharge into arterial streets. Parking lots shall have internal drainage systems so as to reduce concentrated flow onto streets. This requirement shall not apply to residential lots used as single-family residences. The local administrator may approve sheet flows to the subject streets when connecting to an underground storm sewer system is not economical. In sheet flow instances, the developer must prove no adverse impact to the traveling public, and that the street drainage system is capable of conveying the increased flows. Consideration shall also be given to the icing of streets during the winter time.

G. Site grading shall provide surface water drainage directly into a storm sewer, natural drainage course, improved channel, or paved street without crossing more than four adjacent lots.

H. No inlets shall be designed for placement within driveways or entries unless individually approved by the local administrator.

I. Drainage or utility easements of satisfactory width to provide working room for construction and maintenance shall be provided for all stormwater collection systems. In no case shall the total easement width be less than ten feet.

J. All improved open drainage courses shall be maintained by the owner of the land upon which they are located and by the person or entity actually occupying the land upon which the improved open drainage courses are located. Maintenance called for by this section shall be performed as often as necessary to keep the drainage course free of debris and any wild growth above the height of 18 inches above the finished grade of the improved drainage course. Maintenance as necessary to keep sedimentation from exceeding 12 inches in depth above the finished grade will also be performed. In the event that a person or entity charged with the maintenance of an improved open drainage course allows sedimentation in excess of the limits prescribed above, or allows wild growth or debris in excess of the limits prescribed above, to accumulate within the improved open drainage course, and the premises upon which the sedimentation, wild growth, or debris is allowed to accumulate is hereby expressly declared to be a nuisance. In addition to any other remedies available to the City, such nuisances may be abated in the manner provided under the Wagoner Building Code for any other nuisance.

Sec. 17-233. Cross street drainage structure requirements.

A. Bridges. New structurally spanned bridges shall have adequate capacity to pass the one percent chance storm ultimate urbanized flows with one foot of freeboard under the low chord. A hydraulic backwater computer analysis shall be provided to illustrate compliance with this requirement and to insure there are no adverse downstream or upstream impacts.

B. Culverts. New culverts under public roads shall have adequate capacity to pass the one percent chance storm ultimate urbanized flows with a maximum water surface elevation not exceeding six inches below the lowest pavement (or gutter) elevation in the roadway sump. A hydraulic backwater computer analysis shall be provided to illustrate compliance with this requirement and to ensure there are no adverse downstream or upstream impacts.

C. Upon review of the hydraulic backwater computer analysis, should it determine that adverse impacts may occur from the construction of new structurally spanned bridges and/or culverts under public roads, the City, through the local administrator, may authorize the design for construction of such bridges and/or culverts to convey less than ultimate urbanized flows in a manner that does not violate subsection Sec. 17-232(D) of this article.

(Renumbered from Sec. 5-1133 by Ordinance No. 958 6/6/2022)

Sec. 17-234. Stub street drainage requirements. When a stub street is included in a subdivision design, it shall include provisions for drainage of the stub street until such a time as the stub street is connected to the extended street system. Design of stub streets will contain the following minimum provisions for drainage:

1. Stub streets which drain into the development under design will not require special drainage structures.
2. Stub streets which drain away from the development will require a drainage easement on the adjoining property with a one percent chance storm flow capacity ditch to a point of natural drainage or concrete curb and gutter across the end of the street, with storm inlets tied to an operational storm sewer system.

(Renumbered from Sec. 5-1134 by Ordinance No. 958 6/6/2022)

Sec. 17-235. General storage requirements.

A. Stormwater detention storage shall be required to accommodate excess runoff from all storms from the 20 percent chance storm up to the one percent chance storm. Excess runoff is that runoff generated due to urbanization which is greater than the runoff historically generated under existing conditions, for a given frequency storm. Stormwater detention facilities shall be designed so that the peak rate of discharge does not exceed that of the existing conditions and that the downstream effects do not cause an increase in peak flows due to the lag time release from the stormwater detention facility that is coincident with the main stem hydrograph.

B. Peak release rates from private developments shall not exceed the existing runoff that occurred before development for all storm frequencies up to and including the one percent chance storm. The 20 percent chance, ten per cent chance, two percent chance, and one percent chance storms shall be investigated at a minimum.

C. Public regional detention facilities may be designed with one percent chance storm outflow rates equal to or lower than pre-development values with possible increased flow rates for the 20 percent chance, ten percent chance, and two percent chance storms from pre-development flow rates under those conditions where downstream areas are not adversely impacted.

D. If the development is situated in such a manner that the stormwater is discharged into a stormwater system which the local administrator determines will not be adversely affected, the developer may make a monetary payment or some other form of valuable consideration to the City in accordance with Sec. 17-237 of this chapter, in lieu of constructing an on-site stormwater detention facility.

E. Changes may be made to streams or channels within the regulatory flood fringe area; subject to approval of the local floodplain administrator, provided that:

1. The volume of floodwater storage is not reduced;
2. Neither downstream or upstream water surface elevations are adversely increased; and
3. All required permits are obtained prior to starting work.

F. Stormwater detention or other storage facilities shall not be located in street rights-of-way or easements unless it is placed in an enclosed storm sewer system.

(Renumbered from Sec. 5-1135 by Ordinance No. 958 6/6/2022)

Sec. 17-236. Acceptable types of storage. The following are acceptable types of stormwater detention or stormwater retention facilities:

1. Dry stormwater detention facilities: Such facilities must be provided with underground drainage system or a concrete trickle channel or a low impact development channel to eliminate standing water after storm periods. This type of facility may be used for recreational purposes and other approved uses to the maximum extent possible when not functioning as a stormwater detention facility.

2. Wet stormwater detention facilities: Such facilities will be used on a limited basis and will be approved only when the pond inflow is sufficient to maintain pond water surface levels and to preclude the water from stagnating or becoming infested with mosquitoes or other insects.

3. Underground stormwater detention facilities: This type of facility may consist of basins, tanks, and or oversized storm sewer pipes.

4. Parking lot stormwater detention: This type of facility may be used provided the maximum one percent chance storm ponding depth is 12 inches or less. Any repaving of the parking lot shall be evaluated for impact on volume and release rates and are subject to approval by the local administrator. All parking lot stormwater detention areas shall have a minimum of two signs posted identifying the detention pond area. The signs shall have a minimum of one and one-half (1.5) square feet and contain the following message:

“WARNING

This area is a stormwater detention facility and is subject to periodic flooding to a depth of (provide one percent chance storm design depth).”

Any suitable materials and geometry of the sign is permissible, subject to approval by the local administrator.

5. Retention facilities: Such stormwater retention facilities may be used when the existing conditions runoff from a watershed would exceed the capacities of downstream facilities. The stormwater retention facility shall contain the one percent chance 24-hour duration stormwater runoff and release shall be by evaporation, infiltration or slow release at outflow rates less than existing levels.

(Renumbered from Sec. 5-1136 by Ordinance No. 958 6/6/2022)

Sec. 17-237. Fee-in-lieu of detention. When approved or required by the local administrator, a developer shall make a monetary payment or some other form of valuable consideration in lieu of building an on-site stormwater detention facility. The local administrator shall make the determination of whether fee-in-lieu of detention will be allowed or required based upon capacity of the receiving stormwater drainage system and whether regional stormwater detention facilities are either proposed or in place. The amount of the fee shall be based on the number of square feet of impervious area added to the property. The developer shall provide the local administrator calculations of the number of square feet of increased impervious area and the local administrator shall prepare a bill for payment of fee-in-lieu of detention. The fee shall be paid at the time the final plat is released for residential developments. The fee shall be paid prior to issuance of any building permit for non-residential developments. When these fees are collected, they shall be deposited into a stormwater capital improvements fund, which will be used for future or ongoing stormwater improvement and regional detention projects. The developer shall be required to provide a stormwater conveyance channel capable of conveying the 1% stormwater runoff from the proposed development to the proposed regional stormwater detention facility.

(Renumbered from Sec. 5-1137 by Ordinance No. 958 6/6/2022)

Sec. 17-238. Stormwater development permit.

A. A stormwater development permit shall be obtained prior to any development on projects which require platting, site plan approval or alterations to existing public stormwater drainage systems. The minimum submittal requirements shall be as defined in the Wagoner Stormwater Criteria Manual.

B. The local administrator shall have the right to waive sections of the permit requirements, subject to the developer providing adequate proof, to the local administrator, the development does not cause adverse impacts to the community.

C. The developer shall be responsible for the costs incurred by the City’s stormwater manager in reviewing the proposed development. All such costs shall be reimbursed to the City prior to issuance of a Stormwater Development or Earth Change Permit.

D. Review fees shall be established from time to time by the Wagoner Public Works Authority.

(Renumbered from Sec. 5-1151 by Ordinance No. 958 6/6/2022)

Sec. 17-252. Erosion, siltation, and pollution control. Erosion, siltation, and pollution control shall be provided during the construction phase on all construction sites as necessary to prevent impacts to off-site areas and/or public rights-of-way. The primary goal of erosion, siltation, and pollution controls and Best Management Practices is to minimize erosion, sedimentation, and pollution during construction activities until final grading, landscaping, and storm sewer structures are in place. Best Management Practices include, but are not limited to, seeding, sodding, sprigging, silt fences, straw waddle dikes, earth dikes or swales, temporary stream crossings, storm sewer inlet protection, temporary sediment basins, rock check dikes, and stabilized construction entrances. Failure to provide erosion, siltation, and pollution control protection can result in suspension of the Earth Change, Stormwater Development, Floodplain Development, and Building Permits. A violation of this section by failure to comply with any of its requirements shall constitute a misdemeanor. Provided, that each lot upon which such violation occurs shall constitute a separate offense, and each day on which a violation occurs or is allowed to remain shall constitute a separate offense. The imposition of criminal sections shall not prevent the City of Wagoner from taking any lawful action as is necessary to prevent or remedy a violation.

(Renumbered from Sec. 5-1152 by Ordinance No. 958 6/6/2022)

Sec. 17-253. Stormwater illicit discharges purpose and intent. The purpose of this section is to regulate nonstormwater discharges to the City of Wagoner stormwater drainage system to the maximum extent practicable as required by federal and state law. This chapter establishes methods for controlling the introduction of pollutants into the municipal separate storm sewer system (MS4) in order to comply with requirements of the National Pollutant Discharge Elimination System (NPDES) and the Oklahoma Pollutant Discharge Elimination System (OPDES) permit requirements. The objectives of this section are:

1. To regulate the contribution of pollutants to the municipal separate storm sewer system by stormwater discharges by any person;
2. To control the introduction to the municipal separate storm sewer system of spills, dumping, or the disposal of materials other than stormwater;
3. To prohibit illicit connections and illicit discharges to the municipal separate storm sewer system;

4. To establish legal authority to carry out all inspection, surveillance and monitoring procedures necessary to determine compliance and noncompliance with this section;
5. To establish procedures for enforcement of this section;
6. To establish abatement and remediation procedures for this section; and
7. To establish penalties for noncompliance with this section.

(Renumbered from Sec. 5-1153 by Ordinance No. 958 6/6/2022)

(Renumbered from Sec. 5-1154 by Ordinance No. 958 6/6/2022)

Sec. 17-255. Applicability. This chapter shall apply to all water entering the stormwater drainage system generated on any developed and undeveloped lands unless explicitly exempted by an authorized enforcement agency.

(Renumbered from Sec. 5-1155 by Ordinance No. 958 6/6/2022)

Sec. 17-256. Responsibility for administration. The stormwater manager shall administer, implement, and enforce the provisions of this chapter.

(Renumbered from Sec. 5-1156 by Ordinance No. 958 6/6/2022)

Sec. 17-257. Ultimate responsibility. The standards set forth herein and promulgated pursuant to this chapter are minimum standards; therefore this chapter does not intend nor imply that compliance by any person will ensure that there will be no contamination, pollution, or unauthorized discharge of pollutants.

(Renumbered from Sec. 5-1157 by Ordinance No. 958 6/6/2022)

Sec. 17-258. Watercourse protection. Every person owning property through which a watercourse passes, or such person's lessee, shall keep and maintain that part of the watercourse within the property free of trash, debris, excessive vegetation, and other obstacles that would pollute, contaminate, or significantly retard the flow of water through the watercourse. In addition, the owner or lessee shall maintain existing privately owned structures, within or adjacent to a watercourse, so that such structures will not become a hazard to the use, function, or physical integrity of the watercourse.

(Renumbered from Sec. 5-1158 by Ordinance No. 958 6/6/2022)

Sec. 17-259. Accidental discharges.

A. Notwithstanding other requirements of law, as soon as any person has information of any known or suspected release of any discharge or hazardous substance in amounts which could constitute a threat to human health or the environment, the owner, operator, or responsible party shall give notice to the City of Wagoner's stormwater manager and the field office of the Oklahoma Department of Environmental Quality as soon as practicable, but in no event later than the close of business on the day following the accidental discharge or the day the discharger becomes aware of the circumstances.

B. If emergency response by governmental agencies is needed, the owner, operator, or responsible party shall call 911 immediately to report the discharge. A written report must be provided to the City of Wagoner's stormwater manager within ten days of the time the discharger becomes aware of the circumstances.

C. If the discharge of prohibited materials emanates from a private property, commercial establishment, or industrial establishment, the owner or operator shall also retain an on-site written record of the discharge and the actions taken to prevent its recurrence. Such records shall be retained for at least three years.

(Renumbered from Sec. 5-1159 by Ordinance No. 958 6/6/2022)

Sec. 17-260. Illicit discharge prohibitions.

A. No person shall discharge or cause to be discharged into the municipal stormwater drainage system or watercourses any materials, including, but not limited to, pollutants or waters containing any pollutants. The commencement, conduct or continuance of any unlawful discharge is prohibited.

B. It is unlawful for any residence or business to allow drainage of a polluting substance or to allow drainage of water which may become a hazard into any street, alley, sidewalk, or drainage system.

C. The following discharges are exempt from discharge prohibitions established by this section unless the stormwater manager determines that the type of discharge, whether singly or in combination with others, is causing contamination of surface water, stormwater or groundwater or causes overload or damage to the municipal separate storm sewer system or has the potential to endanger public health and safety:

1. Waterline flushing or other potable water sources, landscape irrigation or lawn watering, diverted stream flows, rising groundwater, groundwater infiltration to storm drains, uncontaminated pumped groundwater, foundation or footing drains (not including active groundwater dewatering systems), crawl space pumps, air conditioning condensation, springs, individual residential car washing, noncommercial or charity washing of vehicles, natural riparian habitat or wetland flows, swimming pool water, if dechlorinated, fire hydrant flushings, firefighting activities, and any other water source not containing pollutants;
2. Discharges specified in writing by the stormwater manager as being necessary to protect public health and safety;
3. Dye testing using nontoxic dye is an allowable discharge, but requires a verbal or written notification to the stormwater manager prior to the time of the test; and
4. The prohibition shall not apply to any nonstormwater discharge permitted under a NPDES permit, waiver, or waste discharge order issued to the discharger and administered under the authority of the United States Environmental Protection Agency, provided that the discharger is in full compliance with all requirements of the permit, waiver, or order and other applicable laws and regulations, and provided that written approval has been granted for any discharge to the stormwater drainage system.

(Renumbered from Sec. 5-1160 by Ordinance No. 958 6/6/2022)

Sec. 17-261. Prohibition of illicit connections.

- A. The construction, use, maintenance or continued existence of illicit connections to the stormwater drainage system is prohibited. This prohibition expressly includes, without limitation, illicit connections made in the past, regardless of whether the connection was permissible under law or practices applicable or prevailing at the time of connection.
- B. A person is considered to be in violation of this section if the person connects a line conveying sewage to the MS4, or allows such a connection to continue.

(Renumbered from Sec. 5-1161 by Ordinance No. 958 6/6/2022)

Sec. 17-262. Monitoring of discharges.

- A. The stormwater manager shall be permitted to enter facilities, premises, and watercourses subject to regulation under this chapter for the purpose of observations, measurements, sampling, testing and inspections as often as may be necessary to determine compliance with this chapter. If a discharger has security measures in force, which require proper identification and clearance before entry into its premises, the discharger shall make the necessary arrangements to allow access to representatives of the authorized enforcement agency.
- B. Facility operators shall allow the stormwater manager ready access to all parts of the premises for the purposes of inspection, sampling, examination and copying of records that must be kept under the conditions of a NPDES or OPDES permit to discharge stormwater, and the performance of any additional duties as defined by state and federal law. Any permits, pollution prevention plans, or other documents regarding a facility's stormwater discharge shall be made available to the stormwater manager when requested.
- C. The stormwater manager shall have the right to set up on any permitted facility such devices as are necessary in the opinion of the authorized enforcement agency to conduct monitoring and/or sampling of the facility's stormwater discharge.
- D. The stormwater manager has the right to require the permitted discharger to install monitoring equipment as necessary. The facility's sampling and monitoring equipment shall be maintained at all times in a safe and proper operating condition by the discharger at its own expense. All devices used to measure stormwater flow and quality shall be calibrated to ensure their accuracy.
- E. Any temporary or permanent obstruction to safe and easy access to the facility to be inspected and/or sampled shall be promptly removed by the operator at the written or oral request of the

stormwater manager and shall not be replaced. The costs of clearing such access shall be borne by the operator.

F. Unreasonable delays in allowing the stormwater manager access to a permitted facility is a violation of a stormwater discharge permit and of this chapter. A person who is the operator of a facility with a NPDES permit to discharge stormwater associated with industrial activity commits an offense if the person denies the authorized enforcement agency reasonable access to the permitted facility for the purpose of conducting any activity authorized or required by this chapter.

G. If the stormwater manager has been refused access to any part of the premises from which stormwater is discharged, and the City of Wagoner is able to demonstrate probable cause to believe that there may be a violation of this chapter, or that there is a need to inspect and/or sample as part of a routine inspection and sampling program designed to verify compliance with this chapter or any order issued hereunder, or to protect the overall public health, safety, and welfare of the community, then the City of Wagoner may seek issuance of a search warrant from any court of competent jurisdiction.

(Renumbered from Sec. 5-1162 by Ordinance No. 958 6/6/2022)

Sec. 17-263. Low Impact Development.

A. Low Impact Development (LID) is an innovative, ecosystem-based approach to land development and stormwater management that works with nature to manage stormwater as close to its source as possible. The goal of LID design is to maintain the integrity of each watershed by maintaining the natural predeveloped hydrology on each development site as best possible. LID employs principles that consider stormwater as a resource rather than a waste product. LID is a blend of measures that includes conservation, minimization of impacts, maintaining existing hydrology patterns, integrated management practices, and pollution prevention techniques. Examples of commonly used LID practices include bio-retention and infiltration basins, such as inverted vegetated islands within parking lots, rain gardens, reduced impervious areas, vegetated swales, rain barrels and cisterns, and pervious pavements.

B. The City encourages use of Low Impact Development and recommends that such practices be incorporated into existing and proposed site development. The science, engineering, methodologies, and technologies associated with LID are continually being developed and updated. For the current best management practices (BMPs) suggested for consideration, refer to the United States Environmental Protection Agency web site, the design criteria and engineering construction standards of other communities, trade organizations, and others.

C. Proposed developments designed to achieve low impact development goals shall meet design and best management practices as set forth in the references stated above.

(Renumbered from Sec. 5-1163 by Ordinance No. 958 6/6/2022)

Sec. 17-264. Post-construction stormwater impacts.

A. The purpose of this section is to address the operation and maintenance requirements of post-construction best management practices and stormwater drainage systems within the City of Wagoner to reduce or eliminate post-construction adverse stormwater quality and quantity impacts to the municipal separate storm sewer system, any watercourse of the City, or any waters of the state or United States.

B. For the purposes of this section, the following shall mean:

C. Post-construction: The general time period referenced in perpetuity after the final acceptance of the construction phase of any construction activity identified in subsection (D) below.

D. This section shall be applicable to all post-construction Best Management Practices and stormwater drainage systems on developments which require or required platting, site plan approval, or

alterations to existing public stormwater drainage systems. Post-construction operation and maintenance of private best management practices and private drainage systems on single-family residential properties are exempt from the requirements of this section.

E. Operation and maintenance of post-construction Best Management Practices and stormwater drainage systems shall be performed in such a manner so that adverse stormwater quality and quantity impacts to stormwater drainage systems and receiving streams both on the subject property and on off-site properties are avoided, reduced, or eliminated. Adverse stormwater quality and quantity effects for the purposes of this section include: increased flood elevations, erosion, siltation, sedimentation; reduced base flow; pollution; and degradation of water quality.

F. Stormwater drainage systems for the purposes of this section include any facility, structure, improvement, development, equipment, property or interest therein, including structural and non-structural elements, which are made, constructed, used or acquired for the purpose of collecting, containing, storing, conveying, filtering, treating, infiltrating and controlling stormwater. This includes, but is not limited to, detention facilities, retention facilities, sediment basins, ponds, lakes, engineered open channels, natural channels, floodplains, creeks, storm sewers, conduits, pipes, borrow ditches, swales, roadways, infiltration systems, rain gardens, and bio-retention filters.

G. Post-construction best management practices and stormwater drainage systems shall be operated and maintained so that property owners located downstream from and upstream from the development shall not be injuriously affected.

H. Operation responsibility of post-construction best management practices and stormwater drainage systems shall be borne by the property owner.

I. Maintenance responsibility of post-construction best management practices and stormwater drainage systems shall be borne by the property owner.

J. In the event that the owner fails to properly operate or maintain the post-construction best management practices and stormwater drainage systems such that negative stormwater quality or quantity impacts to the municipal separate storm sewer system, any watercourse of the City, or any waters of the state or United States or stormwater drainage systems and or receiving streams either on the subject property or on off-site properties occurs or is imminent, the City of Wagoner, Oklahoma, may order compliance with this section by written notice of violation (NOV) to the owner. Such notice may require without limitation:

1. The performance of monitoring, analysis, and reporting;
2. The elimination of illicit discharges or connections;
3. That violating discharges, practices, or operations shall cease and desist;
4. The abatement or remediation of stormwater pollutants and restoration of any affected property;
5. The implementation of source control or treatment best management practices; and
6. Payment of penalties as set forth as a misdemeanor.

K. If abatement of a violation or the restoration of affected property is required, the notice of violation shall set forth a deadline that such remediation or restoration must be completed. Said notice of violation shall further advise that should the violator fail to complete the remediation or restoration within the established deadline, the work may be performed by the City of Wagoner, or its designated contractor, and the cost shall be paid by the owner.

(Renumbered from Sec. 5-1164 by Ordinance No. 958 6/6/2022)

Sec. 17-265. Environmental impacts appeals and variance process. Appeals and variances of decisions of the stormwater manager as provided herein shall be heard by the stormwater drainage board as established in this Chapter.

PENALTIES FOR NONCOMPLIANCE

| | | |
|--------------|--|-------|
| Sec. 17-281. | Penalties and administrative remedies. | 17.23 |
| Sec. 17-282. | Penalty for noncompliance. | 17.25 |

Sec. 17-281. Penalties and administrative remedies.

A. Notice of violation.

1. Whenever the City of Wagoner finds that a person has violated a prohibition or failed to meet a requirement of this chapter, the stormwater manager may order compliance by written notice of violation to the responsible person. Such notice may require without limitation:

- a. The performance of monitoring, analyses, and reporting;
- b. The elimination of illicit connections or discharges;
- c. That violating discharges, practices, or operations shall cease and desist;
- d. The abatement or remediation of stormwater pollution or contamination hazards and the restoration of any affected property;
- e. Payment of fines, abatement and remediation costs; and
- f. The implementation of source control or treatment BMPs.

2. The notice of violation shall set forth a notification and compliance period of at least 15 days for the violator to comply with the requirements of the notice or submit in writing to the stormwater manager an explanation of the violation and a satisfactory plan for the correction and prevention of the violation, except that when an imminent hazard exists the stormwater manager may require that corrective work begin immediately. The notification and compliance period will begin on the day the notice is mailed to the violator or the day the notice is posted on

the property having the violation, except that when an imminent hazard exists the stormwater manager may order an immediate summary abatement action to abate the violation. At the time of mailing of notice, the City shall obtain a receipt of mailing from the postal service, which receipt shall indicate the date of mailing and the name and address of the recipient. Said notice shall further advise that, should the violator fail to comply with the requirements of the notice by the established deadline, the work necessary to achieve compliance may be done by the City of Wagoner or a designated contractor and the costs thereof shall be charged to the violator. Submittal of a satisfactory plan for the correction and prevention of the violation in no way relieves the person of liability for any violation(s) occurring before or after receipt of the notice of violation. Issuance of a notice of violation shall not be a prerequisite to taking any other enforcement action.

B. Penalty. A violation of any provision of this chapter by failure to comply with any of its requirements shall constitute a misdemeanor, and any person or entity convicted thereof shall be punishable as set forth in the Wagoner Code of Ordinances. Provided that each lot upon which such violation occurs shall constitute a separate offense; and each day on which a violation occurs or is allowed to remain shall constitute a separate offense. The imposition of criminal sections shall not prevent Wagoner from taking any lawful action as is necessary to prevent or remedy a violation.

C. Abatement, remediation and restoration.

1. Prior to commencement by the City of Wagoner of any abatement, restoration, remediation, or other ordered work, the City of Wagoner shall file a notice of lien with the county clerk describing the property and stating that the City claims a lien on the property for the abatement, restoration, or remediation costs and that such costs are the personal obligation of the property owner, except that when an imminent hazard exists the stormwater manager may file a notice of lien as soon as practicable after the initiation of any summary abatement action.

2. If the violation has not been corrected pursuant to the requirements and within the time period set forth in the notice of violation, then agents of the City of Wagoner or a designated contractor are authorized to enter upon the subject property to perform the required abatement, restoration, remediation, or other ordered work.

3. It shall be unlawful and constitute a misdemeanor for any person, owner, agent or person in possession of any premises to refuse to allow the authorized enforcement agency or designated contractor to enter upon the premises for the purposes set forth above.

D. Demand for payment, liens, and certified statements of cost. After abatement, restoration, or remediation of a violation has occurred, the stormwater manager shall determine the actual cost of the abatement, restoration, or remediation and any other expenses as may be necessary in connection therewith, including, but not limited to, sampling and field testing costs, laboratory costs, and the cost of the notice and mailing. The City of Wagoner shall forward by mail to the property owner a statement of the actual cost and demanding payment. At the time of mailing of notice, the City shall obtain a receipt of mailing from the postal service, which receipt shall indicate the date of mailing and the name and address of the recipient. If the amount due is not paid within 30 days from the date of mailing of the statement, the City of Wagoner shall forward a certified statement of the amount of cost to the county treasurer of the county in which the property is located, and the same shall be levied on the property and collected by the county treasurer as other taxes authorized by law. The cost and the interest thereon shall be a lien against the property from the date the cost is certified to the county treasurer and shall continue until the cost shall be fully paid. Any person violating any of the provisions of this chapter shall become liable to the City by reason of such violation. At any time prior to the collection as provided herein the City may pursue any civil remedy for collection of the amount owing and interest thereon.

E. Suspension of MS4 connection.

1. The stormwater manager may suspend an MS4 discharge connection to a property when such suspension is necessary to stop an actual or threatened discharge which presents or may present

imminent and substantial danger to the environment, or to the health or welfare of persons, or to the MS4 or waters of Oklahoma. If the violator fails to comply with a suspension order issued in an emergency, the stormwater manager may take such steps as deemed necessary to prevent or minimize damage to the MS4 or waters of Oklahoma, or to minimize danger to persons.

2. A person commits an offense if the person reinstates the MS4 connection to premises terminated pursuant to this chapter, without the prior approval of the stormwater manager.

F. Water supply severance. Whenever a person or industry has violated or continues to violate the provisions of this chapter or orders issued hereunder, the stormwater manager may authorize the water service to be severed. Service will only recommence, at the violator's expense, after the violator has satisfactorily demonstrated an ability to comply, and actual compliance.

G. Restoration of lands. Any violator may be required to restore land to its undisturbed condition. In the event that restoration is not undertaken within a reasonable time after notice, the City of Wagoner may take necessary corrective action, the cost of which shall become a lien upon the property until paid.

H. Violations deemed a public nuisance. In addition to the enforcement processes and penalties provided, any condition caused or permitted to exist in violation of any of the provisions of this chapter is a threat to public health, safety, and welfare, and is declared and deemed a nuisance, and may be summarily abated or restored at the violator's expense, and/or a civil action to abate, enjoin, or otherwise compel the cessation of such nuisance may be taken. The stormwater manager may authorize summary abatement actions to protect public health, safety, and welfare. Authorization of a summary abatement action shall grant agents of the City of Wagoner or a designated contractor the right to enter upon the subject property to perform the required summary abatement work.

I. Injunctive relief. It shall be unlawful and constitute a misdemeanor for any person to violate any provision or fail to comply with any of the requirements of this chapter. If a person has violated or continues to violate the provisions of this chapter, the City of Wagoner may petition for a preliminary or permanent injunction restraining the person from activities which would create further violations or compelling the person to perform abatement or remediation of the violation.

J. Remedies not exclusive. The remedies listed in this chapter are not exclusive of any other remedies available under any applicable federal, state or local law and it is within the discretion of the City of Wagoner to seek cumulative remedies.

(Renumbered from Sec. 5-1181 by Ordinance No. 958 6/6/2022)

Sec. 17-282. Penalty for noncompliance. Violation of the provisions of this Chapter or failure to comply with any of its requirements shall constitute a misdemeanor. Any person who violates this Chapter or fails to comply with any of its requirements shall upon conviction thereof be fined as provided in Title 18 of this *Code* for each violation, and in addition shall pay all costs and expenses involved in the case. Provided that each lot upon which a violation occurs shall constitute a separate offense; and each day on which a violation occurs or is allowed to remain shall constitute a separate offense. Nothing herein contained shall prevent the City Council of the City of Wagoner or the City Attorney from taking such other lawful action as is necessary to prevent or remedy any violation.
